PRINCIPLES OF ADMINISTRATIVE LAW

third edition

J. A. G. Griffith and H. Street

Chief among the changes which now make this new third edition necessary are the legislation following the report of the Franks' Committee on Administrative Tribunals, and the re-organization of public transport. *40s. net.*

CASEBOOK OF ADMINISTRATIVE LAW

J. A. G. Griffith and H. Street

A companion volume to the authors' popular standard work mentioned above. Chapters cover the Legislative Powers of the Administration and their control, the Administrative and Judicial Powers of the Administration, the Judicial Control of the Administrative and Judicial Powers of the Administration, Suits against the Administration, and Public Corporations. *50s. net.*

HAWKINS AND RYDER on THE CONSTRUCTION OF WILLS

This book deals in detail with all the important parts of the law governing the construction of wills; an area of the law which constantly raises problems for the Solicitor, and for the practising Barrister. It is based on Hawkins' famous *Concise Treatise on the Construction of Wills*, but the text has been completely re-written and the book is in effect a new work: a fact recognised in the title.

The 1925 property legislation rendered obsolete a number of topics dealt with in previous editions of *Hawkins*, and these, of course, have been omitted. New problems of construction have arisen as a result of the 1925 legislation, and other more recent statutes, and these are discussed in detail. New case law since the last edition has of course been incorporated as well as older relevant cases not included by Hawkins or previous editors. The object in the treatment of cases has been to achieve a useful re-statement of the contemporary law, with emphasis on the more recent decisions.

This work represents a definitive modern statement of the law and is essential to members of the legal profession who are concerned with the construction of wills and also to students preparing for university and professional examinations who demand more information on the question of construction than can be obtained from textbooks dealing with the law of succession as a whole.

By **E. C. Ryder**, M.A., LL.B., of Gray's Inn, Barrister-at-Law
Professor of English Law in the University of London

STROUD'S JUDICIAL DICTIONARY OF WORDS AND PHRASES

SECOND CUMULATIVE SUPPLEMENT

There should certainly be a set of *Stroud* in every law library, and it should also find a place in the reference section of a practitioner's library.

The third edition, in four volumes, was published in 1951-53, and this is now brought up to date by the publication of the *SECOND CUMULATIVE SUPPLEMENT*. It covers the period from January 1, 1951 to May 1, 1964 and replaces, therefore, the first supplement which was published in 1956.

The *SECOND CUMULATIVE SUPPLEMENT* contains all the definitions arising out of every important case heard in the period covered, as well as every statutory definition from the same period. Every definition is separately listed under alphabetical headings and the whole of *Stroud* indexes itself. Copious cross-references and full references to the actual case and statutes are provided.

ESTATE AND GIFT TAXATION A Comparative Study

This book contains the results of a study, carried out under the supervision of Professor G. S. A. Wheatcroft, of estate and gift taxation in Australia, Canada, Great Britain and the United States of America. The approach of this study is primarily legal but every effort has been made to make it useful for economists and others who may be involved in the problems discussed.

Edited by Professor G. S. A. Wheatcroft,
with Specialist Contributors
