NEW  
Horizontal-Entry Sharps Containers  
—Autoclavable

- Handy side-mounted control knobs-better protect operator's hand when discarding sharps.
- Butterfly closure-prevents overfilling.
- Easier sealing closure provides for safe transport.
- Cost-effective horizontal entry-automatically stacks discarded items for maximum use of space.
- Extra-wide opening-permits disposal of larger sharps.
- Convenient needle notches-facilitate faster removal of needles from tube holders and reusable syringes.
- Choice of two wall mounting systems-attractive marbled beige locking wall cabinet or a bracket hanger with optional security lock.
- Nest in storage-easier to assemble-available in 4 and 8 quart size.

## Resistant Sharps Container that's Right for Every Situation\*

NEW  
High Volume Sharps Container

- Large 5 gallon capacity with larger round opening-meets the special needs of most high volume areas.
- Nest in storage-easier to assemble.
- Leakproof-can more safely contain fluids.

NEW  
Chemotherapy Sharps Containers

- Leakproof lid-contains fluids for safe transport; prevents splash out of contents.
- Larger, wide-mouth opening-accepts most large I.V. units and administration kits.
- Nest in storage-easier to assemble-available in 5 and 7 gallon size.

**"HANDS-OFF"**

**INJECTOR  
Tubex®**

(closed injection system) Ayerst

TUBEX®, the unique, *safer*, hands-off injector that puts you farther from the needle and cartridge than any other injection system.

There's no touching.. .shaking.. . manipulation of cartridge or needle. Just twist and drop.

Nurses preferred TUBEX almost 3:1 for the prevention of accidental needle stick injuries in a study comparing TUBEX Injector and Carpuject®.\*1 Which is one more reason to

adopt TUBEX- the injection system designed as if your life depended on it.
