

Copying. This journal is registered with the Copyright Clearance Center, 27 Congress Street, Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$5.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/93 \$5.00 + .00. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

The Proceedings of the Nutrition Society, published by the Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The contributions will be published *in extenso*; such summaries of the ensuing discussions as circumstances warrant may also be published. The Society also holds scientific meetings at which papers are communicated by members and others on original work carried out by them. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription to the *Proceedings* is £109.00 net (US \$217.00 in USA, Canada and Mexico). Single issues are £38.00 (US \$74.00 in the USA, Canada and Mexico) each; postage extra.

CONTENTS

Editorial

- Presentation of Data. *D. A. T. Southgate* 1-2

Energy Balance and Nutrient Intakes

- The energy and nutrient intakes of different types of vegetarian: a case for supplements? *Alizon Draper, Janet Lewis, Nina Malhotra & the late Erica Wheeler* 3-19
- Energy balance in healthy elderly women. *J. J. Reilly, A. Lord, V. W. Bunker, A. M. Prentice, W. A. Coward, A. J. Thomas & R. S. Briggs* 21-27
- Intra- and inter-individual variations in energy expenditure of 14-15-year-old schoolgirls as determined by indirect calorimetry. *Hannelore Rieper, H. Karst, R. Noack & D. Johnsen* 29-36

Effects on Voluntary Food Intake

- Factors affecting the voluntary intake of food by sheep. 6. The effect of monosodium glutamate on the palatability of straw diets by sham-fed and normal animals. *Pablo E. Colucci & W. Larry Grovum* 37-47

Nutrient Interactions and Lactation

- Effect of somatotropin administration and duodenal infusion of methionine and lysine on lactational performance and nutrient flow to the small intestine. *J. M. Aldrich, L. D. Muller & G. A. Varga* 49-58
- Interactions between major nutrients in the diet and the lactational performance of rats. *N. C. Friggens, D. E. F. Hay & J. D. Oldham* 59-71

Metabolic Effects of Nutrient Intakes

- Effects of protein nutrition on the mRNA content of insulin-like growth factor-binding protein-1 in liver and kidney of rats. *Asako Takenaka, Mitsuko Hirotsawa, Masamichi Mori, Senae Yamada, Yutaka Miura, Hisanori Kato, Shin-ichiro Takahashi & Tadashi Noguchi* 73-82
- Comparative changes between pancreas and pancreatic juice digestive enzyme contents during nutritional rehabilitation following severe protein malnutrition in the rat. *Khadija Mohamed-Benkada, Jacques Belleville & Josiane Prost* 83-96
- Effects of dietary protein and fat level on oxidative phosphorylation in rat heart mitochondria. *Masaaki Toyomizu & M. Thomas Clandinin* 97-102
- The effects of abomasal infusions of casein or soya-bean-protein isolate on the milk production of dairy cows in mid-lactation. *Jai-Jun Choung & David G. Chamberlain* 103-115
- Temporal responses of protein synthesis in human skeletal muscle to feeding. *M. A. McNurlan, P. Essen, E. Milne, E. Vinnars, P. J. Garlick & J. Wernerman* 117-126

Environmental Effects on Protein and Energy Metabolism

- The effect of a cold environment on protein and energy metabolism in calves. *Shannon L. Scott, Robert J. Christopherson, James R. Thompson & Vickie E. Baracos* 127-139
