

ALFRED G. MEYER

MARXISM

The Unity of Theory and Practice

A Critical Essay

Reissued with a new Introduction

"It is rare to find a work so penetrating in its exposition and so stimulating in its criticism," commented the *Political Science Quarterly* upon publication of this book in 1954. In his introduction to this latest edition Mr. Meyer brings the study up to date and reflects the widespread changes in attitude toward Marxism. *Russian Research Center Studies, 14.* \$6.00

HARVEY FIRESIDE

ICON AND SWASTIKA

The Russian Orthodox Church under Nazi and Soviet Control

During the Nazi occupation of Russian territories the Orthodox Church staged an unprecedented religious revival. Mr. Fireside shows how the Church was able to steer a neutral course between resistance and collaboration and to emerge with perhaps the greatest freedom of any social institution under the occupation. *Russian Research Center Studies, 62.* \$8.00

BETWEEN NOTHINGNESS AND PARADISE

GERHART NIEMEYER

A highly relevant work by a prominent political philosopher on a feature common to all totalitarian ideologies, "the total critique of society"—that social criticism which damns the entire system. The author isolates and analyzes the structure of ideas that have given rise to the total critiques of our time. He locates the roots of contemporary radical movements in the 18th and 19th centuries and traces their development through the test cases of Marx and Lenin. *May*, \$8.95

THE BASIC SYMBOLS OF THE AMERICAN POLITICAL TRADITION

WILLMOORE KENDALL and GEORGE W. CAREY

A major reassessment of the traditional American concepts of self-government. Using Eric Voegelin's method of theoretical analysis, the authors examine the principles set forth in our most basic and symbolic documents, from the Mayflower Compact to the Gettysburg Address, and consider questions highly relevant to the course of American political development. *May*, \$6.00
