

PUBLICATIONS OF THE ASSOCIATION.

Cloth 4to, 150 pp., 18 plates (12 coloured).

A TREATISE ON THE COMMON SOLE.

BY

J. T. CUNNINGHAM, M.A., F.R.S.E.,
Late Fellow of University College, Oxford; Naturalist to the Association.

Price to Members, 20s.; to Non-Members, 25s.

JOURNAL OF THE MARINE BIOLOGICAL ASSOCIATION.

OLD SERIES.

No. 1, AUGUST, 1887 (only a few copies left, reserved for Libraries).

No. 2, AUGUST, 1888. Price 1s.

NEW SERIES (*Royal 8vo*).

Volume I., 1889-90, Parts I., II., III., and IV.

Volume II., 1891-2, Parts I., II., III., and IV.

Volume III., 1893-4, Parts I., II., III., and IV., and Special Number.

Volume IV., 1895-7, Parts I., II., III., and IV.

Volume V., 1897-9, Parts I., II., III., and IV.

Volume VI., 1899, Parts I., II., and III.

Separate numbers, in wrappers, 3s. 6d.; to Members, 2s. 8d.

London Agents: Messrs. DULAU & Co., 37, Soho Square, W.

Medium 8vo, 368 pages. 159 Illustrations and two Maps. Price 7s. 6d. net.

THE NATURAL HISTORY

OF THE

Marketable Marine Fishes of the British Islands.

Prepared expressly for the use of those interested in the Sea-fishing Industries,

BY

J. T. CUNNINGHAM, M.A.,

FORMERLY FELLOW OF UNIVERSITY COLLEGE, OXFORD;

NATURALIST ON THE STAFF OF THE MARINE BIOLOGICAL ASSOCIATION.

With Preface by

E. RAY LANKESTER, M.A., LL.D., F.R.S.,

PROFESSOR OF COMPARATIVE ANATOMY IN THE UNIVERSITY OF OXFORD.

OBJECTS

OF THE

Marine Biological Association of the United Kingdom.

THE ASSOCIATION was founded at a Meeting called for the purpose in March, 1884, and held in the Rooms of the Royal Society of London.

The late Professor HUXLEY, at that time President of the Royal Society, took the chair, and amongst the speakers in support of the project were the late Duke of ARGYLL, the late Sir LYON PLAYFAIR, Lord AVEBURY, Sir JOHN HOOKER, the late Dr. CARPENTEE, Dr. GUNTHER, the late Lord DALHOUSIE, the late Professor MOSELEY, the late Mr. ROMANES, and Professor LANKESTER.

The Association owes its existence and its present satisfactory condition to a combination of scientific naturalists, and of gentlemen who, from philanthropic or practical reasons, are specially interested in the great sea fisheries of the United Kingdom. It is universally admitted that our knowledge of the habits and conditions of life of sea fishes is very small, and insufficient to enable either the practical fisherman or the Legislature to take measures calculated to ensure to the country the greatest return from the "harvest of the sea." Naturalists are, on the other hand, anxious to push further our knowledge of marine life and its conditions. Hence, the Association has erected at Plymouth a thoroughly efficient Laboratory, where naturalists may study the history of marine animals and plants in general, and where, in particular, researches on food fishes and molluscs may be carried out with the best appliances.

The Laboratory and its fittings were completed in June, 1888, at a cost of some £12,000. Since that time investigations, practical and scientific, have been constantly pursued at Plymouth. Practical investigations upon matters connected with sea-fishing are carried on under the direction of the Council; in addition, naturalists from England and from abroad have come to the Laboratory, to carry on their own independent researches, and have made valuable additions to zoological and botanical science, at the expense of a small rent for the use of a working table in the Laboratory and other appliances. The number of naturalists who can be employed by the Association in special investigations on fishery questions, and definitely retained for the purpose of carrying on those researches throughout the year, must depend on the funds subscribed by private individuals and public bodies for the purpose. The first charges on the revenue of the Association are the working of the sea-water circulation in the tanks, stocking the tanks with fish and feeding the latter, the payment of servants and fishermen, the hire and maintenance of fishing boats, and the salary of the Resident Director and Staff. At the commencement of this number will be found the names of the gentlemen on the staff. In no case does any one salary exceed £250.

The Association has received some £32,500, of which £16,000 has been granted by the Treasury. The annual revenue which can be at present counted on is about £1,600, of which £1,000 a year is granted by the Treasury, the remainder being principally made up in subscriptions.

The admirable Marine Biological Laboratory at Naples, founded and directed by Dr. Dohrn, has cost about £20,000, including steam launches, &c., whilst it has an annual budget of £7,000.

The purpose of the Association is to aid at the same time both science and industry. It is national in character and constitution, and its affairs are conducted by a representative Council, by an Honorary Secretary and an Honorary Treasurer, without any charge upon its funds, so that the whole of the subscriptions and donations received are devoted absolutely to the support of the Laboratory and the prosecution of researches by aid of its appliances. The reader is referred to page 4 of the Cover for information as to membership of the Association.

CONTENTS OF NEW SERIES, Vol. VI., No. 3.

	PAGE
1. THE FAUNA OF THE EXE ESTUARY. By E. J. ALLEN, D.Sc., and R. A. TODD, B.Sc. <i>With a Chart</i>	295
2. THE FORAMINIFERA OF THE EXE ESTUARY. By R. H. WORTH	336
3. THE PLANKTON OF THE FARÖE CHANNEL AND SHETLANDS. PRELIMINARY NOTES ON SOME RADIOLARIA AND COPEPODA. By R. N. WOLFENDEN, M.D., F.Z.S. <i>With Plates I.-IV. and a Chart</i>	344
4. THE PERIODIC GROWTH OF SCALES IN GADIDÆ AND PLEURONECTIDÆ AS AN INDEX OF AGE. By J. STUART THOMSON. <i>With Plate V.</i>	373
5. NOTES ON PLYMOUTH SPONGES. By GEORGE BIDDER.	
1. <i>Sycon compressum</i> . ON A SPECIFIC CHARACTER	376
2. <i>Halichondria panicea</i> ; <i>Suberites domunculus</i> . VARIATION AND METAMPHY	380
6. NOTES ON THE YOUNG OF <i>Bleinnius gallerita</i> , LINN. (MONTAGU'S BLENNY). By L. W. BYRNE	383
7. ON THE OCCURRENCE OF <i>Squilla desmaresti</i> IN THE NORTH SEA. By F. JEFFREY BELL, M.A.	387
8. THE SECOND INTERNATIONAL CONFERENCE FOR THE EXPLORATION OF THE SEA, CHRISTIANIA, 1901	389
9. REPORT OF THE COUNCIL, 1900-1901	413
BALANCE SHEET, 1900-1901	423
10. DIRECTOR'S REPORT	424
11. LIST OF GOVERNORS, FOUNDERS, AND MEMBERS, DECEMBER 1ST, 1901	427

NOTICE.

The Council of the Marine Biological Association wish it to be understood that they do not accept responsibility for statements published in this Journal, excepting when those statements are contained in an official report of the Council.

TERMS OF MEMBERSHIP.

	£	s.	d.
Annual Members per annum.	1	1	0
Life Members Composition Fee.	15	15	0
Founders	100	0	0
Governors	500	0	0

Members of the Association have the following rights and privileges: they elect annually the Officers and Council; they receive the Journal of the Association free by post; they are admitted to view the Laboratory at Plymouth, and may introduce friends with them; they have the first claim to rent a place in the Laboratory for research, with use of tanks, boats, &c.; and have access to the books in the Library at Plymouth.

All correspondence should be addressed to the Director, The Laboratory, Plymouth.
