WADDEM

WORLD ASSOCIATION FOR DISASTER AND EMERGENCY MEDICINE

SAVE THE DATE

The 4th Pan American Conference

The National Conference Center
Leesburg, Virginia, USA
October 15 - 17, 2012
www.wadem.org

Measuring Progress and Improving Preparedness in Disaster Management

Topics will include:

Consensus-building Workshops

- Disaster Terminology
- Foreign Medical Teams
- Accountability
- Assessments and Measurements

Discussions and Papers

- Uses of Social Media
- New Technology
- Safe Medical Facilities
- Forensics
- Psychosocial issues
- Roles of emergency, military, nursing, and medicine in disaster health

This conference will bring together individuals interested in disaster and emergency medicine/management to discuss developments in risk reduction, preparedness, and responses, and to build consensus on important related issues.

The conference will focus on risk reduction, improving preparedness, and assessing responses worldwide from prehospital care systems through post-event evaluations. There will be consensus-building workshops, debates, keynote addresses, as well as invited and free papers. Additionally, there will be several relevant pre- and post-conference workshops and courses.

Call for Papers

Only 50 papers related to the above topics will be accepted.
Abstract submission opens: March 1, 2012
Deadline for submission of abstracts: May 31, 2012

Prehospital and Disaster Medicine (ISSN 1049-023X) is published bimonthly in the months of February, April, June, August, October, December, by Cambridge University Press for the World Association for Disaster and Emergency Medicine. Prehospital and Disaster Medicine incorporates the Journal of the World Association for Emergency and Disaster Medicine and the Journal of Prehospital Medicine.

Editorial Information: All manuscripts must be submitted through the Journal's online submission platform, ScholarOne Manuscripts: <http://mc.manuscriptcentral.com/pdm>.

Subscription Information: Institutions print and electronic: US\$460.00 in the USA, Canada, and Mexico; UK£288.00+VAT elsewhere. Institutions electronic only: US\$345.00 in the USA, Canada, and Mexico; UK£216.00+VAT elsewhere. Individuals print and electronic: US\$138.00 in the USA, Canada, and Mexico; UK£86.00+VAT elsewhere. Individuals electronic only: US\$104.00 in the USA, Canada, and Mexico; UK£65.00+VAT elsewhere. Single Part: US\$85.00 in the USA, Canada, and Mexico; UK£53.00+VAT elsewhere. Prices include postage and insurance. Airmail or registered mail is extra. Back volume prices are available upon request. Claims of non-receipt or damaged issues must be filed within three months of cover date.

Comprehensively indexed by the National Library of Medicine (MEDLINE), Cumulative Index to Nursing and Allied Health (CINAHL) and Health Star Cumulative Index. The database is available online via BRS, Data-Star, and DIA-LOG, and on CD-ROM through CD Plus, Compact Cambridge and Silver Platter. Abstracts and search capability available on the Internet at <http://pdm.medicine.wisc.edu>.

Cover Artwork

Time Travelers, a watermedia painting (watercolor and gouache) by Carla O'Connor

Carla O'Connor received her BFA in painting from Kent State University, Kent, Ohio. She has completed additional formal study at the University of the Americas, Mexico City; University of Dayton, Ohio; and the University of Wisconsin, Milwaukee.

She is a signature member of the American Watercolor Society, National Watercolor Society and Northwest Watercolor Society and is an AWS Dolphin Fellow.

O'Connor has juried for national and international art exhibits including AWS and NWS, the Rocky Mountain National Exhibition, California Watercolor Society and the Watercolor Art Society - Houston. She also served as chairman of the awards jury for the AWS International Exhibition in 2008. O'Connor participated in the First Invitational Exhibition of Contemporary International Watermedia Masters, Nanjing, China, 2007 and 2009 and the Shanghai Zhujiajiao Exhibition, 2010.

Carla is the recipient of many awards from organizations such as the National Watercolor Society and the American Watercolor Society, including the AWS Silver Medal. Her work has appeared in numerous publications including Nita Leland's "Exploring Color" and "The New Creative Artist" as well as "Splash 5 - The Glory of Color". She has authored articles for U.S. publications including The Artist Magazine, International Artist Magazine, Watercolor Magic, Watercolor, and American Watercolor Magazines. Her work appeared in The Artist in the United Kingdom and L'Art De L'Aquarelle in France.

O'Connor teaches workshops throughout the year in the U.S. and abroad, and her teaching DVD, "Figure Design in Gouache - The Process" was released in July of 2008.

Aims and Scope: The mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster health, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. The major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multi-casualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.

Editorial Office: Prehospital and Disaster Medicine, 3330 University Avenue, Suite 130, Madison, Wisconsin 53705, USA. Telephone: (+1) (608) 819-6604; Facsimile (+1) (608) 819-6055; E-mail: pdm@wadem.org

Publishing, Production, and Advertising Office: Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, United States.

Subscription Offices: (for USA, Canada, and Mexico) Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, United States; (for UK and elsewhere) Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK.

2012 Subscription Information: *Prehospital and Disaster Medicine* (Print ISSN 1049-023X; Electronic ISSN 1945-1938) is published bimonthly in the months of February, April, June, August, October, and December by Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013-2473, United States/Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 8RU, UK for the World Association for Disaster and Emergency Medicine. 2011 Annual subscription rates: Institutions print and electronic: US\$516.00 in the USA, Canada, and Mexico; UK£313.00+VAT elsewhere. Institutions electronic only: US\$375.00 in the USA, Canada, and Mexico; UK£227.00+VAT elsewhere. Individuals print and electronic: US\$153.00 in the USA, Canada, and Mexico; UK£93.00+VAT elsewhere. Individuals electronic only: US\$113.00 in the USA, Canada, and Mexico; UK£68.50+VAT elsewhere. Single Part: US\$94.00 in the USA, Canada, and Mexico; UK£57.00+VAT elsewhere. Prices include postage and insurance. Airmail or registered mail is extra. Back volume prices are available upon request.

Indexing: National Library of Medicine (MEDLINE), Cumulative Index to Nursing and Allied Health (CINAHL), and Health Star Cumulative Index.

Printed in United States of America on acid-free paper.

Postmaster: Send address changes in the USA and Canada to *Prehospital and Disaster Medicine*, Subscription Department, Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2133, USA.

Periodical postage rate paid at New York, NY and additional mailing offices.

INSTRUCTIONS FOR AUTHORS

Editorial Policy

Manuscripts in one of five different categories can be submitted for review and publication in *Prehospital and Disaster Medicine* (PDM): (1) Original Research; (2) Special Report; (3) Comprehensive Review; (4) Case Report; or (5) Brief Report.

All manuscripts submitted for publication must include an abstract that summarizes the work. Other types of manuscripts must have the approval of the Editor before being submitted or may be invited by the Editor or a member of the Editorial Board.

The characteristics specific to each of these categories are described briefly below:

1. **Original Research**—structured research that uses quantitative and/or qualitative data collection methods and analyses to establish a hypothesis or prove a cause: effect relationship(s) is included in this category. The manuscript must be structured as follows:

Abstract—concise summary in the following format (not to exceed 375 words):

Introduction: What is the need for the study.

Hypothesis/Problem: What was tested (experimental studies only). If qualitative, statement of problem addressed.

Methods: Summary of methods used with subsections as appropriate (type of subjects, number of subjects, study design, statistical tests). If the work is qualitative, the types of instruments used and the scope and type of work must be described. If a disaster is involved, the dates, type of event, location, scope, magnitude, and numbers of casualties and deaths must be summarized in tabular form for indexing.

Results: Summary of principal findings.

Conclusion: Implications of findings.

Introduction—provide justification for the effort with appropriate references annotated. If quantitative, the concluding sentence should define the hypothesis. If qualitative, the problem being addressed should be stated clearly.

Methods—descriptive to a degree that other investigators would be able to reproduce the study. Statistical methods used must be annotated. Approval by an Institutional Review Committee must be included when appropriate.

Results—results must be written in text and may be accompanied by tables and figures. The text must explain all data included in tables and figures, but should not be unnecessarily redundant. All direct results from the study must appear in this section. No discussion of the results may be included.

Discussion—the discussion should provide an interpretation of the results in terms of meaning and application. Results should not be repeated. Computations or extrapolations that may help explain the results may be provided. Limitations of the study should be defined and suggestions for future research should be included. References that support or negate explanations provided are appropriate.

Conclusion—the findings in terms of implications for the practice of prehospital, emergency, and/or disaster (humanitarian) medicine should be summarized in a few sentences.

2. **Special Report**—describes some aspect of our science or activities that provide information necessary for the progression of the science. The

Introduction should highlight the problem being addressed and the reasons that it needs to be addressed. Sections of the report should be subtitled. The presentation should include citations as to the sources of the material and should be followed by a discussion that includes the significance of the report in terms of the science. The manuscript should be finished with the conclusions reached.

3. **Comprehensive Review**—a review of the literature to be used to clarify areas in which there seems to be disagreement. Comprehensive reviews seek to establish the evidence-base for the area being addressed. The format used should be identical to that described for special reports.
4. **Case Report**—uses one or more cases of specific patients or events/responses to highlight a current aspect of medical care or of a phenomenon. Case reports also may have value in the development of definitive research projects by the same or other investigators. The Introduction should describe the reasons for the report. The actual case report(s) should be described in the next section, and like the above, the discussion should describe the significance of the reports including a comprehensive review of the pertinent literature. The conclusion should be similar to the format noted above.
5. **Brief Report**—a short report that may predict a trend, but the work does not meet all of the criteria required for original research. Preliminary reports also are included in this category. The format used should be identical to that used for the original research described above.
6. **Congress Abstracts**—All abstracts submitted by the Secretariat of a Congress will be edited by the Editorial Staff into the best English possible prior to publication.

Submission of Manuscripts

All manuscripts must be submitted through the Journal's online submission platform, ScholarOne Manuscripts: <http://mc.manuscriptcentral.com/pdm>.

The following must be included with the submitted manuscript:

Cover Letter—each manuscript should be accompanied by a cover letter stating the following:

- The primary author who attests to the original nature of the material, that the paper has not been published elsewhere, is not under consideration by any other publication
- That the authors agree to transfer copyright to *Prehospital and Disaster Medicine* if accepted for publication.
- The institution(s) in which the work was performed, the sponsoring institution(s), and the respective departments must be annotated.
- If the work was supported all or in part by grants or endowments, the granting institution(s) should be indicated.
- If the paper has been, or is to be presented in a forum orally or as a poster, indicate the title of the forum, sponsoring institution, and the date of presentation.
- Specify the name of the author with whom any correspondence should be directed, and, correspondence street address, telephone number, fax number, and email address if appropriate. Abbreviations for groups of words may be used only for unusually cumbersome titles or for commonly accepted abbreviations. Whenever such abbreviations are used, they must be annotated with the initial mention of words within the manuscript followed by the abbreviation in parentheses.

- In addition, list three to five keywords or phrases in alphabetical order separated by semicolons to facilitate indexing or electronic searches.

Cover Page—include a cover page that includes the title of the paper, first names, middle initials, last names, and highest academic degrees of all authors. Reiterate from the cover letter the name of the author with whom any correspondence should be directed and the street address, telephone number, fax number, and email address if appropriate. Do not indicate author names or institutions anywhere in the manuscript other than on the cover page.

Language—all manuscripts must be submitted in English. Also, do not use *I, We, or Our* when describing the researchers. The fact that the research was conducted by the authors is implicit.

Margins, and Type Style—Use standard type styles. Do not use bold, italicized, superscript, or subscript characters. Double space all text.

Generic Names—whenever possible, use generic names. Brand names may be indicated parenthetically and the name and location of the manufacturer must be provided in parentheses followed by a generic description of the medication, drug, product, or equipment.

Copyright—after acceptance for publication, the copyright to the manuscript, including all tables and figures, rests with *Prehospital and Disaster Medicine*.

References

References **must** be cited in the sequential order in which they appear in the text. All references should be parenthetically cited by full-sized Arabic numbers in the text, tables, and legends for illustrations. Titles of journals referenced must be annotated using standard *Index Medicus* abbreviations and must be in italics. Do not use automatic numbering in the References section. Unpublished data or personal communications should be indicated in parentheses directly following the reference and should include the dates of such correspondence (Personal Communication, Safar P, October 1989). The following format for references **must** be used:

Journals—White SJ, Hamilton WA, Veronesi JF: Comparison of field techniques used to pressure infuse intravenous fluids. *Prehosp Disaster Med* 1991; 6(4):429–434.

Books—Schwartz GR, Safar P, Stone JH, *et al* (eds), *Principles and Practice of Emergency Medicine*. 2d ed. Philadelphia: WB Saunders Co., 1985, pp 1198–1202.

Chapters—Lindberg R: Pathology of Head Injuries. In: Cowley RA, Trump BF (eds), *Pathophysiology of Shock*. Baltimore: Williams and Wilkins, 1982, pp 588–592.

Website—International Crisis Group: Impact of the Bali bombings. In: *Indonesia Briefing*, Jakarta/Brussels. Available at http://www.crisisweb.org/projects/asia/indonesia/reports/A400804_24102002.pdf. Accessed 09 June 2003.

Figures and Tables

Only essential figures and tables should be included. Further tables, figures, photographs and appendices, may be included with the online version on the journal website.

Photographs Photographs should be submitted electronically through the Journal's online submission platform: <http://mc.manuscriptcentral.com/pdm> and be at **least 600 dpi resolution**. Color illustrations must be discussed with the editor. The printed version will normally be reduced to 70 mm wide, so care should be taken to ensure that lettering and symbols will remain clearly legible.

To ensure that your figures are reproduced to the highest possible standards and your article is published as quickly and efficiently as possible, Cambridge Journals recommends the following formats and resolutions for supplying electronic figures. Please note that submitting low quality figures may result in a delay in publishing your valuable research.

Please ensure that your figures are saved at final publication size (please see the latest issue of the journal for column widths) and are in our recommended file formats. Following these guidelines will result in high quality images being reproduced in both the print and the online versions of the journal.

Line artwork

Format: tif or eps

Color mode: black and white (also known as 1-bit)

Size: please size to final publication size

Resolution: 1200 dpi

Combination artwork (line/tone)

Format: tif or eps

Color mode: grayscale (also known as 8-bit)

Size: please size to final publication size

Resolution: 800 dpi

Black and white halftone artwork

Format: tif

Color mode: grayscale (also known as 8-bit)

Size: please size to final publication size

Resolution: 300 dpi

Color halftone artwork

Format: tif

Color mode: CMYK color

Size: please size to final publication size

Resolution: 300 dpi

All graphs, and diagrams should be referred to as figures and should be numbered consecutively in Arabic numerals.

Permissions—illustrations or tables from other publications must be accompanied by written permission from the author and publishers of the document in which they originally appeared.

Proofs and offprints

Page proofs will be sent to the author designated to receive correspondence. Corrections other than to printer's errors may be charged to the author. A final PDF version of the article will be supplied to the corresponding author when the article is published.
