

*Symposia of the British Society for Parasitology Volume 33*

Volumes 1–18 were published by Blackwell Scientific Publications Ltd., Oxford.

The following volumes were published by Cambridge University Press:

19. *Parasites as Biological Control Agents* edited by R. M. Anderson and Elizabeth U. Canning, 1982, as Volume 84 Part 4.
20. *The Reproductive Biology of Parasites* edited by P. J. Whitfield, 1983, as Volume 86 Part 4.
21. *Parasite Evasion of the Immune Response* edited by R. M. E. Parkhouse, 1984, as Volume 88 Part 4.
22. *Chemotherapy of Parasites* edited by D. A. Denham, 1985, as Volume 90 Part 4.
23. *Parasites and Molecular Biology: Applications of New Techniques* edited by A. J. G. Simpson, 1986, as Volume 92 Supplement.
24. *Pathophysiological Responses to Parasites* edited by M. E. Rose and D. J. McLaren, 1987, as Volume 94 Supplement.
25. *Molecular Transfer across Parasite Membranes* edited by C. Arme and L. H. Chappell, 1988, as Volume 96 Supplement.
26. *Vaccines and Vaccination Strategies* edited by D. J. McLaren and L. H. Chappell, 1989, as Volume 98 Supplement.
27. *The Evolutionary Biology of Parasitism* edited by A. E. Keymer, A. F. Read and L. H. Chappell, 1990, as Volume 100 Supplement.
28. *Parasite Neurobiology* edited by D. W. Haltón and L. H. Chappell, 1991, as Volume 102 Supplement.
29. *Human Parasitic Disease: The Complementary Roles of Field and Laboratory Studies* edited by D. A. P. Bundy and L. H. Chappell, 1992, as Volume 104 Supplement.
30. *The Impact of Global Change on Disease* edited by W. Hominick and L. H. Chappell, 1993, as Volume 106 Supplement.
31. *Functional molecules on the surface of protozoan parasites* edited by J. E. Smith and L. H. Chappell, 1994, as Volume 108 Supplement.
32. *Parasite vaccines* edited by F. M. Tomley, D. W. Taylor and L. H. Chappell, 1995, as Volume 110 Supplement.

# Parasitology

## CONTENTS

Wakelin, D. and Walliker, D. <i>Preface</i>	S1
Thompson, R. C. A. and Lymbery, A. J. Genetic variability in parasites and host-parasite interactions	S7
Weatherall, D. J. Host genetics and infectious disease	S23
Grencis, R. K. T cell and cytokine basis of host variability in response to intestinal nematode infections	S31
Riley, E. M. The role of MHC- and non-MHC-associated genes in determining the human immune response to malaria antigens	S39
Morrison, W. I. Influence of host and parasite genotypes on immunological control of <i>Theileria</i> parasites	S53
Blackwell, J. M. Genetic susceptibility to leishmanial infections: studies in mice and man	S67
Hill, A. V. S. Genetic susceptibility to malaria and other infectious diseases: from MHC to the whole genome	S75
Clarke, B. C. Concluding remarks	S85
