

## **Announcement**

“Cellular and Molecular Biology?” This section will be unveiled in the December issue of *Canadian Journal of Animal Science*, and will include a special group of papers that will be of interest to readers of *Animal Science*.

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.

b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.

c) Colour plates are unlikely to be accepted unless the authors bear the cost.

*Tables* should be as simple and as few as possible. Each table should be typed on a separate sheet.

*Abstract.* Every paper should have a short abstract (not more than 250 words) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

*Keywords.* Up to a maximum of five keywords selected from the *CAB Thesaurus* (1995) or from an equivalent reference volume should be listed at the end of the Abstract.

*References.* Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. References with three or more authors should be cited in the first and subsequent occasions with the first author in full followed by *et al.* (e.g. Smith, Jones and Brown: Smith *et al.*). References with two authors should be cited in full on all occasions. References should be given in full in the Reference list and it is the responsibility of authors to check for absolute accuracy in every detail of the reference.

*Proofs* are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

*Reprints.* Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage.

*Annual subscription* is £165-00 (or \$295-00 in the USA and Canada) and the price for a single part is £28-00 (or \$50-00) net.

*Abstracts of papers presented at British Society of Animal Science winter meeting* are published separately.

*Correspondence* regarding subscriptions and sales (current and back numbers of the Journal) and any other enquiries, including those concerning copyright, should be addressed to: Publications Office, British Society of Animal Science, PO Box 3, Penicuik, Midlothian EH26 0RZ, UK.

*Senior editor*

T. L. J. Lawrence, University of Liverpool, UK

*Editors*

M. P. Boland, University College Dublin, Ireland

M. V. Dodson, Washington State University, USA

J. Jensen, Danish Institute of Animal Science, Foulum, Denmark

J. J. Kennelly, University of Alberta, Canada

I. J. Lean, Wye College, University of London, UK

K. Lundström, Swedish University of Agricultural Sciences, Sweden

C. S. Mayne, Agricultural Research Institute of Northern Ireland, Hillsborough, UK

C. A. Morgan, Scottish Agricultural College, Edinburgh, UK

P. J. Moughan, Massey University, New Zealand

F. W. Nicholas, University of Sydney, Australia

J. D. Oldham, Scottish Agricultural College, Edinburgh, UK

E. Owen, University of Reading, UK

R. E. Short, US Department of Agriculture, Montana, USA

T. T. Treacher, Universita Publica de Navarra, Spain

P. M. Visscher, University of Edinburgh, UK

A. J. F. Webster, University of Bristol, UK

J. D. Wood, University of Bristol, UK

*Technical editors*

Hilary Davies, Liverpool, UK

Carol Woolliams, Peebles, UK
