

LORD MCNAIR

The Law of Treaties

Lord McNair has enlarged and rewritten the *Law of Treaties*, first published in 1938, which was designedly a statement of the international law of treaties as understood in the United Kingdom. In the new book of 1961 an attempt has been made to state the law from an international aspect, while at the same time preserving the point of view and the method of the average common lawyer.

'... should find a place in the libraries of every Foreign Office the world over, and in every law library where the study of public international law has become an active interest.' *LAW TIMES* 84s net
