CAMBRIDGE PHILOSOPHICAL SOCIETY

FOUNDED 1819; ROYAL CHARTER 1832

Session 1958–1959

President: F. P. BOWDEN

Vice-Presidents: E. J. H. CORNER, F. J. W. ROUGHTON, F. P. WHITE

Treasurer: R. C. EVANS

Secretaries: (Mathematical) H. P. F. SWINNERTON-DYER

(Physical) T. E. FABER

(Biological) S. SMITH

The publications of the Society consist of the *Proceedings* and of the *Biological Reviews*. The publication of *Transactions* was suspended at the end of Volume XXII.

Orders should be sent to: THE MANAGER, CAMBRIDGE UNIVERSITY PRESS, BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1. Enquiries from the U.S.A. should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, U.S.A.

For the purchase of early parts of the *Transactions*, *Proceedings* and *Biological Reviews* application should be made to the Secretaries. All parts of the *Proceedings* and *Biological Reviews* are available, and prices of sets or single parts will be quoted on application.

Fellows and Associates of the Society are particularly requested to inform the Secretaries of any change of postal address, and to send their subscriptions to the Treasurer, CAMBRIDGE PHILOSOPHICAL SOCIETY, FREE SCHOOL LANE, CAMBRIDGE.

All correspondence regarding library exchanges and Fellows' copies should be addressed to the Secretaries at the Society's office.

PROCEEDINGS of the CAMBRIDGE PHILOSOPHICAL SOCIETY

edited by

H. P. F. SWINNERTON-DYER

in consultation with

P. C. CLEMMOW	D. V. LINDLEY	F. URSELL
T. E. FABER	F. SMITHIES	E. C. ZEEMAN
E. R. LAPWOOD		

1. Four parts of the *Proceedings* are issued each year.

2. Communications for the *Proceedings* should be sent to *The Librarian, Cambridge Philosophical Society, Free School Lane, Cambridge.* Papers by Fellows and Associates of the Society should be communicated directly by the author. Other papers must be communicated by a Fellow, who in doing so should give his opinion on the suitability of the paper for publication.

3. Papers occupying more than twenty pages of print can only very rarely be accepted.

4. It is recommended that each paper be prefaced by a short abstract. Copies of a *Guide for the Preparation of Synopses*, prepared by the Abstracting Services Consultative Committee and issued by the Royal Society, may be obtained from the Librarian.

5. Drawings for illustration and diagrams should be on a large scale and on smooth white Bristol board in Indian ink.

6. References should be listed at the end of each paper. World List abbreviations for titles of journals should be used and first and last page numbers given where relevant.

7. **Authors are particularly requested to prepare their manuscripts in a form suitable for printing, with adequate margins. A pamphlet on the preparation of papers may be obtained from the Librarian. If a large number of corrections are required in the proofs, the Council reserves the right to make a charge towards the cost.**

8. Authors may receive, on request, fifty offprints of a paper in the *Proceedings* without charge.

ROYAL STATISTICAL SOCIETY

THE JOURNAL OF THE ROYAL STATISTICAL SOCIETY is published in two series: SERIES A (GENERAL), four issues a year, 20*s*. each part, annual subscription £4. 4*s*. post free; SERIES B (METHODOLOGICAL), two issues a year, 30*s*. each part, annual subscription £3. 2*s*. post free.

Contents of Series B (Methodological), Vol. 20, Part 2, 1958

The Regression Analysis of Binary Sequences. By D. R. COX. (With Discussion.)

Renewal Theory and its Ramifications. By WALTER L. SMITH. (With Discussion.)

On Asymptotically Efficient Consistent Estimates of the Spectral Density Function of a Stationary Time Series. By EMANUEL PARZEN.

The Estimation of the Spectral Density after Trend Removal. By E. J. HANNAN.

On the Smoothing of Probability Density Functions. By P. WHITTLE.

Experiments with Mixtures. By HENRY SCHEFFÉ.

The Interaction Algorithm and Practical Fourier Analysis. By I. J. GOOD.

Equally Correlated Variates and the Multinormal Integral. By ALAN STUART.

Formulae for Calculating the Operating Characteristic and the Average Sample Number of Some Sequential Tests. By K. W. KEMP.

On Corrections to the Chi-Squared Distribution. By J. H. DARWIN.

Sampling without Replacement with Probability Proportional to Size. By W. L. STEVENS.

Multivariate Quantal Analysis. By P. J. CLARINGBOLD.

A Concise Derivation of General Orthogonal Polynomials. By C. P. COX.

A Simplified Model for Delays in Overtaking on a Two-Lane Road. By J. C. TANNER.

Obtainable through any bookseller or direct from:

ROYAL STATISTICAL SOCIETY

21 BENTINCK STREET, LONDON, W.1

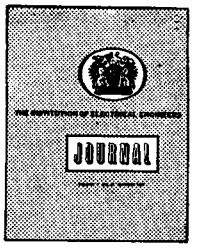
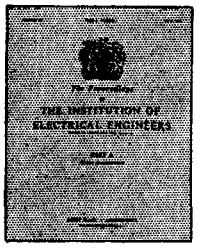
THE JOURNAL

MONTHLY. Subjects of general interest, as apart from the specialised papers and discussions appearing in Parts "A" and "B" of the Proceedings, are treated in the monthly JOURNAL which is distributed free to members of the Institution but is also on sale to non-members.



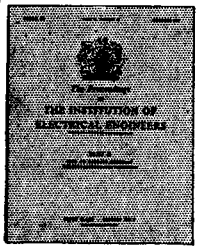
THE PROCEEDINGS

Part "A". Contains papers and discussions concerning the specialised spheres of power generation, transmission, meters and instruments...and applications of electricity. Published in February, April, June, August, October, and December.



THE PROCEEDINGS

Part "B". Contains papers and discussions concerning the progress and developments in the fields of telecommunication, radio, electronics and the many allied interests. Published in January, March, May, July, September, and November.



JOURNAL OF THE SOCIETY FOR
INDUSTRIAL AND APPLIED MATHEMATICS
1958

VOLUME 6, NUMBER 3 (SEPTEMBER)

A Mathematical Formulation of Influence Distributions in Decision-Making Groups. MANFRED KOCHEN

On the Non-linear Theory of Shallow Spherical Shells. HUBERTUS J. WEINITSCHKE

Note on a Paper by Zuhovickii Concerning the Tchebycheff Problem for Linear Equations. WARD CHENEY and ALLEN A. GOLDSTEIN

A Note on Numerical Integrating Operators. T. F. BRIDGLAND, Jr.

A Study of the Restricted Random Walk. R. SHERMAN LEHMAN and GEORGE H. WEISS

On Acceleration and Matrix Deflation Processes Used with the Power Method. ELMER E. OSBORNE

Generalization of Concepts Related to Linear Dependence. HENRY C. THATCHER, Jr.

A Note on Degree-n Independence. G. WHAPLES

The Disordered Lattice Problem: A Review. ALEXEI MARADUDIN and GEORGE H. WEISS

VOLUME 6, NUMBER 4 (DECEMBER)

A Solution Method for the Transportation Problem. MURRAY GERSTENHABER

On Non-Linear Eigenvalue Problems for Matrices. K. G. GUDERLEY

Reactor Criticality and Non-Negative Matrices. GARRETT BIRKHOFF and RICHARD S. VARGA

Computing Eigenvalues of Complex Matrices by Determinant Evaluation and by Methods of Danilewski and Wellandt. WERNER L. FRANK

The Computation of Eigenvalues and Eigenvectors of a matrix. PAUL A. WHITE

The Monte Carlo Method. W. F. BAUER

Approximate Solutions of Transport Problems—Part I: Steady-State, Elastic Scattering in Plain and Spherical Geometry. HERBERT B. KELLER

The Evaluation of Matrix Inversion Programs. MORRIS NEWMAN and JOHN TODD

The Journal is published quarterly. Subscriptions are $8.00 per volume ($8.50 overseas). Single numbers $2.00 per copy from 1954, $3.00 per copy for 1953. Orders should be placed with the
