

CORRIGENDUM

The effects of concentrated barley β -glucan on blood lipids in a population of hypercholesterolaemic men and women

By Joseph M. Keenan, Melanie Goulson, Tatyana Shamliyan, Nathan Knutson, Lore Kolberg and Leslie Curry

Volume **97** (2007) Number 6
pp 1165

The results of the report on “The effects of concentrated barley beta-glucan on blood lipids” in the June, 2007 issue of BJT were incorrectly reported. The last sentence of the second paragraph, p 1165, should read, “The 5 g HMW group experienced a 17 % drop in LDL-C where LDL-C was reduced by 15 % in the 5 g LMW group, 10 % in the 3 g HMW group and 10 % in the 3 g LMW group.”
