

Ten-month part-time courses

# finance and accounting diploma for engineers

**CDipAF** Certified Diploma in Accounting & Finance

- Gain a high level understanding of financial management and planning, and management accounting
- Acquire the Certified Diploma in Accounting and Finance awarded by the Association of Certified Accountants (incorporated by Royal Charter)
- STUDY part-time at Polytechnics, etc, or by the Association's own successful correspondence course backed with a five-day full-time seminar
- The course is specifically designed for non-accountants
- For further details contact Mrs. Diane Castro, Diploma Scheme (AE2), Association of Certified Accountants, 9 Museum House, Museum Street, London WC1A 1JT (01-580 7179)

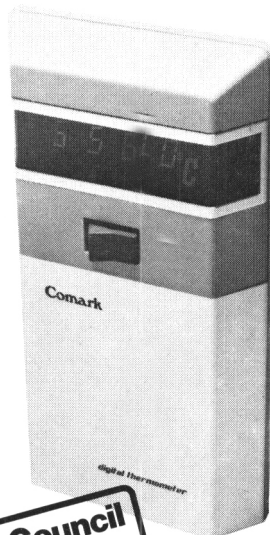

At the moment, only the  
**3001** knows how good  
it is.

But we'd like to change that, by telling you about our new pocket thermometer.

For use with thermocouples and weighing only 300gms, it will easily fit into the palm of your hand. The 8.2mm green display gives a readout at better than 2°C accuracy between -50°C and +800°C, and operation is by use of a front panel thumb switch.

The 3001 has a battery life of up to 7 hours or, if you prefer it, a rechargeable cell version is available.

But, to really know the 3001, you need our full colour brochure. Please use our enquiry number. We'll introduce you properly.

# DECCA AVIONICS

Decca Aviation Electronics – the choice of an ever growing number of users:

Decca Doppler Navigation Systems have been installed in 75 different types of rotary and fixed wing aircraft and supplied to 35 different countries.

The TANS Computer/Display is in service in a number of countries and has been ordered

by the British Ministry of Defence for a number of aircraft programmes.

The Decca Navigator is used by the Royal Air Force, British Airways and in a wide variety of fixed and rotary wing civil and military aircraft throughout the world.

Decca Loran is used by the RAF, the USAF and the US Coast Guard.

The MONA area navigation system, certified by the CAA and FAA in the Lockheed TriStar, is now in widespread airline service.

Decca provides a range of airborne VHF Nav/Comm and

DME equipment, ordered in quantity by the Ministry of Defence.

Ground equipment includes a CAA approved NDB, ILS and a Doppler/VOR Beacon recently awarded a contract by the Portuguese Directorate General of Civil Aviation. The AN/TRN-26 portable TACAN has been chosen by the Ministry of Defence (RAF).

The Decca range of equipment includes electronic warfare systems, ASMI, radio communications and Omega.

Throughout the world, Aviation relies on Decca for safety and reliability in navigation.
