NUTRASE

ENDO-1,4- β -XYLANASE

ONE ENZYME,
A WORLD OF BENEFITS

ENZYME FOR MORE PROFIT

- Improved growth and FCR
- More breast meat
- Dry litter

UNIQUE CHARACTERISTICS

- Optimal activity at neutral pH
- Less sensitive for xylanase inhibitors
- Highly stable during pelletizing and digestion
- Break-down of soluble and insoluble arabinoxylans

PROVEN EFFICIENCY

- Effective in wheat, barley, rye, corn and grain by-products
- Only one enzyme needed for a broad range of monogastric animals

HENDRIX GENETICS

FOUNDERS OF FUTURE GENERATIONS

Hendrix Genetics is a global multi-species animal genetics company investing in technology, people and progress to deliver sustainable value to business partners, employees and society.

Hendrix Genetics has 4 divisions: ISA, the layer breeding division; Hybrid the turkey breeding division; Hypor the pig breeding division and SFPA, the poultry distribution division. Hendrix Genetics Research & Technology Centre supports the breeding divisions of the company with up to date expertise and technologies that are shared between the genetic selection programs of the various species.

Hendrix Genetics has around 1000 employees with a further 500 working in joint ventures. This Hendrix Genetics team combines 50 fully or partially owned companies in 22 countries around the world.
