

## Announcements

The fourth Gordon Research Conference on Quantitative Genetics and Biotechnology will be held on 15 to 19 February 1993 in Ventura, California. The complete programme and applications to attend the meeting will appear in the 9 October issue of *Science* or may be obtained from the conference chair: Frank Enfield, Department of Genetics and Cell Biology, University of Minnesota, St Paul, Minnesota 55108, USA. Fax 612-625-5754.

### Call for Abstracts for the 1993 Annual Meeting of the International Embryo Transfer Society 10 to 12 January; Bellemont Hotel, Baton Rouge, LA, USA

Topics of the invited papers include advances in bovine superovulation, *in vitro* production of embryos, micromanipulation of embryos, gene transfer in domestic animals, and the rôle of growth factors in early embryonic development.

**Abstract forms and instructions** as well as information about the **student competitions and travel awards** may be obtained from:

Mr Carl Johnson,  
International Embryo Transfer Society,  
309 West Clark Street, Champaign, IL 61820, USA.  
Telephone: 001/217-356-3182; Fax: 001/217-398-4119.

The **FIRM DEADLINE** for receipt of the abstract (original on the signed form and three photostatic copies) is **14 August 1992**. Fax copies will not be accepted. They should be mailed to:

Dr Dr habil. Heiner Niemann,  
Institut für Tierzucht und Tierverhalten,  
(FAL) Mariensee, 3057 NEUSTADT 1, Germany.  
Telephone: 49-5034/871-148; Fax: 49-5034/871-143.

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

a) Diagrams should be drawn in black ink, about twice the size of the finished block, on white paper or card, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be avoided as far as possible but if unavoidable it should be included on a fly-leaf.

b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the editors.

c) Colour plates are unlikely to be accepted unless the authors bear the cost.

*Tables* should be as simple and as few as possible. Each table should be typed on a separate sheet.

*Abstract.* Every paper should have a short abstract (not more than 250 words for a paper and 120 words for a note) complete in itself and understandable without reference to the paper. The abstract will be printed at the beginning of the paper and preferably should be in the format of unnumbered short paragraphs.

*Keywords.* Up to a maximum of five keywords selected from the *CAB Thesaurus* (1988) or from an equivalent reference volume should be listed at the end of the Abstract.

*References.* Only papers closely related to the author's work should be referred to; exhaustive lists should be avoided. The arrangement of references should be as in recent papers in *Animal Production*; details are given in the notes for guidance.

*Proofs* are supplied once and must be returned corrected to the editors within 3 days. Only essential corrections should be made.

*Reprints.* Twenty-five reprints of each paper will be supplied free of charge to authors on request. Further copies may be purchased if the order is sent at the proof-stage. Reprints are not supplied for notes.

*Annual subscription* is £110.00 (or \$220.00 in the USA and Canada) and the price for a single part is £20.00 (or \$40.00) net.

*Abstracts of papers presented at British Society of Animal Production winter meeting* are published as a separate section in the June issue of *Animal Production*.

*Correspondence* regarding subscriptions and sales (current and back numbers of the Journal) and any other enquiries, including those concerning copyright, should be addressed to: Durrant Periodicals, Winton Lea, Pencaitland, East Lothian, Scotland EH34 5AY.

*Senior editor*

T. L. J. Lawrence, University of Liverpool

*Editors*

D. G. Chamberlain, Hannah Institute, Ayr

W. Haresign, University of Nottingham

C. L. Johnson, University of Leeds

I. J. Lean, Wye College, University of London

C. A. Morgan, Scottish Agricultural College, Edinburgh

E. Owen, University of Reading

R. Thompson, AFRC Institute of Animal Physiology and Genetics Research, Edinburgh

A. J. F. Webster, University of Bristol

J. D. Wood, University of Bristol

*Technical editors*

Hilary Davies

Marie C. Pitkethly
