# Clarity of Responsibility, Accountability, and Corruption

Corruption is a significant problem for democracies throughout the world. Even the most democratic countries constantly face the threat of corruption and the consequences of it at the polls. Why are some governments more corrupt than others, even after considering cultural, social, and political characteristics? In *Clarity of Responsibility, Accountability, and Corruption*, the authors argue that clarity of responsibility is critical for reducing corruption in democracies. The authors provide a number of empirical tests of this argument, including a cross-national time-series statistical analysis to show that the higher the level of clarity the lower the perceived corruption levels. Using survey and experimental data, the authors show that clarity causes voters to punish incumbents for corruption. Preliminary tests further indicate that elites respond to these electoral incentives and are more likely to combat corruption when clarity is high.

**Leslie Schwindt-Bayer** is the Albert Thomas Chair and Associate Professor of Political Science at Rice University and her work focuses on institutions and presidential systems with a regional focus on Latin America and developing democracies. CHARLES DERBER & YALE R. MAGRASS

## **Bully Nation** **How the American Establishment Creates a Bullying Society**

Charles Derber and Yale R. Magrass

“A welcome departure from the popular habit of reducing distasteful behavior to family pathologies or genetic dispositions, *Bully Nation* is an important example of how intelligent social science can help heal the world. If bullying is rooted in history and structured by institutions, then citizen action can do something about it.”—**John Ehrenberg**, author of *Civil Society: The Critical History of an Idea*

“This thoughtful study expertly dissects the ‘bullying scourge’ that poisons lives and society, exposing its roots in the institutional structure of a ‘militaristic capitalist culture’ that it reflects and nurtures, while also revealing the encouraging reactions that may offer cures for the malady and the factors that engender it.”—**Noam Chomsky**

# APSA Congressional Fellowship for Political Scientists

Apply now for the 2017–2018 fellowship year

## Apply Now!

*Since 1953, the APSA Congressional Fellowship Program has brought more than 2,200 scholars and professionals to Washington, DC, to gain a hands-on understanding of Congress. Fellows begin their fellowship year with a comprehensive four-week orientation with leading congressional experts and policy leaders. Fellows then serve full-time placements of their choosing in the House of Representatives or Senate.*

***The fellowship year also includes:***

- *Winter and spring seminar series on Congress*
- *A trip to the district or state of a Member of Congress*
- *Optional study visits to Annapolis, Maryland, and Ottawa, Canada*

**QUALIFICATIONS:** Applications are welcome from political scientists who have completed a PhD in the last 15 years or will have defended a dissertation in political science by November 2017. Candidates must be US citizens or permanent residents. The program is open to scholars in all subfields of political science who can show a scholarly interest in Congress and the policymaking process.

**FELLOWSHIP YEAR:** Orientation begins in November 2017. Office assignments run until August 15, 2018. Two optional programs precede the main fellowship year. Candidates may apply to take a course on Congress and Foreign Policy taught in September and October 2017, as well as apply for a fellowship through the William A. Steiger Fund to spend up to two months at the APSA Centennial Center carrying out a project in legislative studies.

**STIPEND:** \$50,000 for the 9.5-month fellowship period, plus a travel allowance.

**SELECTION:** Preference is given to those who have not had extensive Capitol Hill experience.

**APPLICATION PROCEDURE:** The application period opens in September 2016, and applications are due December 5, 2016. Applications must be submitted online and include:

- a detailed CV
- a 500-word personal statement explaining how the fellowship relates to professional goals
- the names and contact information for three professional references who have agreed to write letters of recommendation
- a writing sample

## WEALTH, POVERTY AND POLITICS

REVISED AND ENLARGED EDITION

THOMAS SOWELL

*Wealth, Poverty and Politics* is a new approach to understanding age-old issues about economic disparities among nations and within nations. These disparities are examined in the light of history, economics, geography, demography and culture.

*Wealth, Poverty and Politics* is also a challenge to much that is being said today about income distribution and wealth concentration—a challenge to the underlying assumptions and to the ambiguous words and misleading statistics in which those assumptions are embedded, often even by leading economists. This includes statistics about the much-discussed “top one percent.”

This revised and enlarged edition should be especially valuable to those who teach, and who want to confront their students with more than one way of looking at issues that are too important to be settled by whatever the prevailing orthodoxy happens to be.

\*\*\*\*\*

A true gem in terms of exposing the demagoguery and sheer ignorance of politicians and intellectuals in their claims about wealth and poverty . . . Dr. Sowell’s new book tosses a monkey wrench into most of the things said about income by politicians, intellectuals and assorted hustlers, plus it’s a fun read.

(Professor Walter E. Williams, George Mason University)

At a time when many politicians, academics and media commentators are focusing on income inequality, Thomas Sowell’s *Wealth, Poverty and Politics: An International Perspective* offers a refreshing and stimulating view.

(Professor John B. Taylor, Stanford University)

Sowell... draws from this well of research to do what he has done so well for so long: question basic assumptions behind public policy and follow the facts where they lead him.

(Jason Riley, *Wall Street Journal*)

It’s a scandal that economist Thomas Sowell has not been awarded the Nobel Prize. No one alive has turned out so many insightful, richly researched books. His latest is another triumph of crackling observations that underscore the ignorance of our economists and policymakers. His take on how culture, geography, politics and social factors affect how societies progress— or don’t— will rile those addicted to political correctness but leave everyone else wiser.

(Steve Forbes, *Forbes* magazine)
