

NOTES FOR AUTHORS

Submitting a paper

Full details on submitting a paper, including the style guide and L^AT_EX class file and macro package, can be found at <https://www.cambridge.org/core/journals/proceedings-of-the-royal-society-of-edinburgh-section-a-mathematics/information/instructions-contributors>

Proceedings of the Royal Society of Edinburgh: Section A considers for publication papers in all areas of mathematics. Please note that this journal does not consider simultaneous submissions from the same author.

- Authors will be asked to state the primary AMS 2010 Classification Number and between three and six keywords.
- Authors should nominate the most appropriate Editor for their paper.
- It is assumed that the author uploading the paper will be responsible for correspondence. A paper by more than one author should be approved in its entirety by the joint authors. An acknowledgement e-mail will be sent to all authors.
- Proceedings A has a page limit of 25pp but may consider papers up to five pages longer to allow for variation in final typeset length. Authors must prepare their papers as concisely as possible. Longer papers can be difficult to review in a reasonable time and can be judged more harshly.
- Each paper must be accompanied by an abstract, in general not exceeding 200 words, which will be printed.
- References should be listed at the end of the paper in alphabetical order, numbered sequentially. References within the text should be indicated by numbers in square brackets.

To submit your paper visit https://rse.msp.org/submit_new.php?jpath=rse_proc_a_math and follow the instructions for uploading.

Once a paper has been accepted for publication, authors will be asked to supply the appropriate file. This should be a single file, with any relevant macros included in the preamble, and named after the article reference number (e.g. 150421-authorname.tex). Figures should be submitted as eps or pdf files at the same time as the code for the paper. Detailed instructions will be given on acceptance.

Language

We recommend that non-English-speaking authors have their manuscripts checked by an English language native speaker before submission, to ensure that submissions are judged exclusively on academic merit. Third-party services specialising in language editing and/or translation can be found here: <https://www.cambridge.org/core/services/authors/language-services>. Use of any of these services is voluntary, and at the authors' own expense.

Proofs and offprints

Authors will be sent proofs of their paper by e-mail in pdf format for checking. A pdf of the final 'publisher's version' of the paper will be sent to the corresponding author shortly after print publication in lieu of hard copy offprints.

Copyright/Open Access

The RSE now operates a 'hybrid' Open Access model for its journals, for accepted papers submitted on or after 1 April 2013. On acceptance, authors will be given the option of having their paper published **either** under a regular publication agreement **or** under a fully Open Access agreement. Under the regular publication option, authors will be asked to sign the Journal's standard transfer of copyright form.

If authors choose the Open Access option, they will be asked to sign the alternative Open Access form and, upon payment of a one-off Article Processing Charge of UK£1780/US\$2835 (in 2017), the final published Version of Record shall be made freely available to all in perpetuity, and will be published under a creative commons licence, enabling its free re-use and re-distribution.

Please note that publication under a fully Open Access agreement is part of the Cambridge Open option. (For more details, please see: <https://www.cambridge.org/core/services/open-access-policies>)

Authors are also asked to ensure that any electronic versions of their paper clearly state the official place of publication.

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, papers published in *Proceedings A* may only be reproduced, stored or transmitted with the prior permission of the copyright holder, or, in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. The Society permits the making of a single photocopy of an article from an issue (under Sections 29 & 38 of the Act) for an individual for the purposes of research or private study.

CONTENTS

LEI NIU AND ALFONSO RUIZ-HERRERA	
Simple dynamics in non-monotone Kolmogorov systems	369–384
ANDREW CLARKE AND CARL TIPLER	
Equivariant stable sheaves and toric GIT	385–416
WEI SHI, GERGŐ NEMES, XIANG-SHENG WANG AND RODERICK WONG	
Error bounds for the asymptotic expansions of the Hermite polynomials	417–440
SILI LIU, WENJUN WANG AND HUANYAO WEN	
The Cauchy problem for an inviscid Oldroyd-B model in three dimensions: global well posedness and optimal decay rates	441–490
CHIARA D’ONOFRIO AND CATERINA IDA ZEPIERI	
Γ -convergence and stochastic homogenization of degenerate integral functionals in weighted Sobolev spaces	491–544
DANIELE ANGELLA AND FRANCESCO PEDICONI	
On cohomogeneity one Hermitian non-Kähler metrics	545–587
IWONA CHLEBICKA	
Measure data elliptic problems with generalized Orlicz growth	588–618
GUOJING REN AND HAO ZHU	
Jump phenomena of the n -th eigenvalue of discrete Sturm–Liouville problems with application to the continuous case	619–653
SERGI BAENA-MIRET AND MARÍA J. CARRO	
Weighted estimates for Bochner–Riesz operators on Lorentz spaces	654–678
SAMIK BASU AND DEBANIL DASGUPTA	
BP-cohomology of projective Stiefel manifolds	679–701
MARKO RADOVANOVIĆ	
On the topological complexity and zero-divisor cup-length of real Grassmannians	702–717
KENG DENG AND YIXIANG WU	
Corrigendum: Dynamics of a susceptible–infected–susceptible epidemic reaction–diffusion model	718–720
