

**VAN HOUTEN'S
COCOA,**

BEST & GOES FARTHEST,

IS

THE ORIGINAL

PURE SOLUBLE COCOA

Invented & Patented in Holland

by the Founder of this Firm.

ALL OTHERS are IMITATIONS.

A comparison will show its

GREAT SUPERIORITY

IN

STRENGTH, FLAVOUR & CHEAPNESS.

THE THROAT HOSPITAL, GOLDEN SQUARE, W.

ESTABLISHED 1863.

President—LORD CALTHORPE.

*Upwards of 100,000 Out-patients treated since the Hospital was Established ;
19 Beds for In-patients.*

The Hospital is open to occasional professional visitors. Fees for regular attendance on the Practice,
£3 3s. for three months, £5 5s. for six months.

Post-Graduate Course of Laryngology, Rhinology, Etc.

SYSTEMATIC COURSES OF INSTRUCTION,

Each consisting of twelve Lectures, Clinical and Pathological Demonstrations, etc., are conducted by the Members of the Staff.

The object of these Courses is to give Actual Instruction in the Diagnosis and Treatment of Diseases of the Throat and Nose, and the Practitioner is allowed the opportunity of handling the Patients himself, under the guidance of Members of the Staff and their Clinical Assistants.

*The Courses are so arranged that a Student can enter at any time.
Fee, £3 3s.*

Application to be made to the DEAN, at

THE THROAT HOSPITAL, GOLDEN SQUARE,

From whom Prospectuses of the Course can be obtained.

THE THROAT AND VOICE.

LONDON]

FEBRUARY.

[1891.

CHLORATE OF POTASH TABLOIDS.

FOR AFFECTIONS OF THE VOICE, THROAT AND RESPIRATORY SURFACES GENERALLY.

By using the Tabloids the drug is effectually brought in contact with the oral mucous surfaces as a continuous gargle, and its specific action made certain. In acute sore throat, Chlorate of Potash "usually relieves the uneasiness in a few hours" (Cohen). "It is used in ulcerated mouth and follicular pharyngitis, and has been employed in croup, diphtheria, and spasm of the larynx" (Brunton).

"Of convenient size, they are beautifully made; and, as they dissolve slowly in the mouth, are well suited for throat affections."—THE LANCET.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 4d. and 8d. each. Retail prices, 6d. and 1s. each.

CHLORIDE OF AMMONIUM TABLOIDS.

The solvent and discutient as well as antiphlogistic powers of Chloride of Ammonium are well known, and have led to its extensive employment in cases of sore throat and bronchitis, attended with abundant secretion of thick and tough mucus or phlegm. The Tabloids slowly dissolving secure direct and continuous contact with the inflamed surface. They quickly mitigate irritation, and lessen expectoration.

Two or three of the Tabloids will sometimes entirely relieve coughs that have long resisted treatment with ordinary remedies.

Supplied to the Medical Profession in bottles, at 5d. and 9d. each. Retail prices, 6d. and 1s. each.

VOICE TABLOIDS.

Composed of COCAINE, Chlorate of Potash and Borax.

Impart a clear and silvery tone to the voice. Easily retained in the mouth while singing or speaking. Now used by the leading singers and public speakers throughout the world.

DIRECTIONS.—A single Tabloid may be slowly dissolved in the mouth to remove huskiness or hoarseness.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 8d. and 1s. 4d. each. Retail prices, 1s. and 2s. per box.

SAL PRUNELLA TABLOIDS.

(NITRATE OF POTASH.)

"A popular remedy, sometimes successful in mild cases of incipient inflammatory sore throat, is a small piece of nitre allowed to dissolve slowly in the mouth" (Waring).

DIRECTIONS.—One or more (5 gr.) Tabloids should be dissolved slowly in the mouth for the local effect.

Supplied to the Medical Profession, in bottles of 100, at 9d. each. Retail price, 1s. each.

HAZELINE.

The Witch Hazel Plant.

This drug is highly commended by the British Medical Association's Committee on Therapeutics. Hazeline, being prepared from the fresh green twigs, contains all the valuable volatile principles of the plant Witch Hazel, and is much more uniform and reliable in its action than are the tinctures, fluid extracts, etc., prepared from the dried bark.

DIRECTIONS:—In Catarrh or cold in the head it may be sniffed up the nostrils with an equal part of tepid water.

Dose for irritated or inflamed throat and lungs, half to one teaspoonful occasionally.

Supplied to the Medical Profession in ½ lb. and 1 lb. bottles, at 1s. 2d. and 3s. 6d. each. Retail prices, 1s. 6d. and 4s. 6d. each.

YERKER'S IMPROVED CHLORIDE OF AMMONIUM INHALER.

"The neutral vapour of Chloride of Ammonium removes unhealthy and offensive secretions, and restores the long diseased or weakened nasal and respiratory mucous membrane to a healthy state,

so that in cases of catarrh, where thickening, induration and irritation exist a most decided improvement is brought about in a short time." In "throat-cough," pharyngeal irritation, and relaxation and weakness of the throat, it acts as a most effective alterative and tonic to the mucous membrane.

Dr. SMVLV, Ex.-Pres. Royal College of Surgeons, Ireland, says:—"It is the best Inhaler for Chloride of Ammonium I have met with."

Supplied to the Medical Profession at 5s. each. Retail 7s. each.

Burroughs, Wellcome & Co., Snow Hill Buildings, London. E.C.

REGISTERED

“PUMILINE”

TRADE MARK

IS INDICATED IN

**LARYNGEAL CATARRH,
BRONCHIAL and
PULMONARY AFFECTIONS,
RHEUMATISM, GOUT.**

THE SNOW-GROWN PINUS PUMILIO.

**LARYNGEAL AND PULMONARY
AFFECTIONS.**

Internal administration and inhalations of the
Pumiline Essence.

GOUTY AND RHEUMATIC AFFECTIONS.

Pumiline Baths (obtained by dissolving the
Extract in hot water) followed by frictions with
the Liniment over the affected joints; also the
internal administration of the Essence.

THE efficacy of the **Pumiline Preparations** has been confirmed
by extensive clinical experience and in private practice.

Over 1000 Testimonials from Medical Men.

SIR MORELL MACKENZIE writes:—“It is a valuable preparation; admirable in Bronchitis
and Laryngeal Catarrh.”

Dr. LITTON FORBES, F.R.C.S., Senior Surgeon to the Eye, Ear, and Nose Hospital, Wells
Street, W., writes:—“PUMILINE is the best Inhalant we have. I prescribe it largely, with
great success.”

Dr. WILSON WRIGHT, F.R.C.S., Senior Surgeon to the Birmingham and Midland Throat
Hospital, writes:—“PUMILINE has never failed to give the patient and myself great satisfaction.”

The **JOURNAL OF LARYNGOLOGY** says:—“We accord PUMILINE the first place in the
market.”

PUMILINE ESSENCE,
1/6 and 2/6 per Bottle,
For Inhalation and Internal Use.

PUMILINE EXTRACT,
1/- per Bottle,
For Baths and Poultices.

PUMILINE OINTMENT,
1/4 and 2/9 per Pot,
For Skin Affections.

PUMILINE SOAP,
6d. and 1s. per Tablet,
Superfatted Hygienic Toilet.

PUMILINE JUJUBES.
1/4 and 2/3 per Box.

PUMILINE LINIMENT.
1/4 and 2/9 per Bottle.

PUMILINE Antiseptic WOOL,
2/- per Sheet (36 x 24).

Copies of Analytical Reports, Pamphlets, and Samples of Pumiline Essence, Extracts,
Jujubes, Ointment, Liniment, Soap, and a Pneumatic Spray for Deodorizing, sent FREE
to Medical Men on application to—

G. & G. STERN, 62, Gray's Inn Road, London, W.C.

The Court Circular

AND COURT NEWS.

COURT CIRCULAR.—VOL. L.XV.—No. 1822. } ESTABLISHED 1856. SATURDAY, NOV. 1, 1890.

Registered at the General Post Office as a Newspaper.

AN IMPORTANT MANUFACTURE.

THE *Court Circular* says:—Writing on the subject of nourishment a few months ago, we then recorded a valuable discovery in meat foods, to wit—Caffyn's Liquor Carnis, which we explained was a genuine extract of beef. We alluded to the exceptional medical testimony in favour of its nutritive qualities, and having given it a trial ourselves pronounced it, to all intents and purposes, perfect. So far so good. It is all very well to say an article is this or it is that; but there are many persons, like ourselves, who want to know *why* it is so. In order to ascertain this, we obtained permission to visit the manufactory, and now purpose giving a brief description of the process of manufacture, as we saw it at the works of the Liquor Carnis Company (Limited). First and all-important matter in connection with an extract of beef is the quality of the meat itself: and here, we may remark, the sight of the beef on the cutting-up table is worth seeing. Prime cuts of the finest

ENGLISH OR SCOTCH BEEF

are alone visible; no imported meat is permitted on the establishment. These "cuts" are then placed on scrupulously clean metal trays, which are placed in a press that works by hydraulic pressure. By this means the juice is naturally squeezed out into receptacles which surround the four sides of the press, and it can be seen from the foregoing that this is juice of the ox pure and simple. But as a food, this, as it is, would be too rich—it would contain too great a proportion of nitrogen. It is, therefore, mixed with a proper quantity of one of the carbohydrates, which, besides supplying the

needed quantity of carbon, acts as a preservative of this literally Liquor Carnis.

We note that several scientists and medical authorities have recently gone over the works, and are all equally eulogistic as to the peculiar merits of this preparation. Amongst others Professor Attfield, from whose report we quote the following lines:—

"The analyses and the inspection enable me to state that Caffyn's Liquor Carnis contains, first, all the substances characteristic of Liebig's Extract of Beef; it is, therefore, a powerful stimulant; but, in addition, I find it to contain all the soluble and albuminoid constituents of meat; it is, therefore, also a Nutrient or true Food: and hence *infinitely superior* in true nourishing power to any

BEEF EXTRACT OR BEEF TEA.

For, in the preparation of Extract of Beef, or of Beef Tea, or Mutton Broth, &c., the juice of the meat is necessarily heated, whereby the albumen, which is the nourishing part of the juice, is turned to curds, which are all, or practically all, strained out with and in the meat. In Caffyn's Liquor Carnis this highly valuable albumen is retained."

THE LIQUOR CARNIS COMPANY, LIMITED,

50, Holborn Viaduct, London, E.C.

Laboratories—Smithfield Works, London, E.C.

Specimens of the Caffyn's Liquor Carnis will be sent free by request to the Manufacturers and Patentees.
