

## Index of Subjects

- Adenovirus types 4, 7 and 21; patterns of infections with in military recruits, 255
- Aerosol sampling in the field with a cyclone separator, 387
- Air samples, selection of *Staphylococcus aureus* in cultures, 35
- Airborne excretion of foot-and-mouth disease virus, 671
- Air-movement control for treatment and isolation rooms, 225
- Antibody against influenza A 2 virus neuraminidase in human sera, 353
- Antibody response and reactions to aqueous influenza vaccine, simple emulsion vaccine and multiple emulsion vaccine, 485
- Antibody response following smallpox vaccination and revaccination, 603
- Antibody response in non-haemorrhagic smallpox patients, 609
- Antibodies against toxoplasma in sera from Hong-Kong, 739
- Antigenic analysis of vibrio culture filtrate and vaccine El Tor vibrio, 539
- Antigenic variation; its influence on influenza A 2 epidemics, 551
- Antigens of *Mycoplasma hominis*, 585
- Arizona and *Salmonella* in reptiles and man in Western Australia, 135
- Bacterial contamination on the surface of hospital linen chutes, 427
- Bacteriophage H 1 of *Corynebacterium ulcerans*, the preservation of by freeze-drying, 573
- Bacteriophage T 4, some factors affecting the viability of after freezing and thawing. I, 107; II, 679
- Blood groups A and O; HI antibody to various influenza viruses and adenoviruses in individuals belonging to, 67
- Bovine mastitis due to pantothenate-requiring dwarf colony variants of *Staphylococcus aureus*, 511
- Bronchopneumonia, terminal. A bacteriological and histological study of 111 necropsies, 477
- Brucellosis in Northern Ireland. A serological survey, 409
- Carrier state as a source of *Staphylococcus aureus* in wound sepsis, 49
- CELO virus as a possible contaminant of egg-grown virus vaccines, 41
- Chemical reactions of the haemagglutinins and neuraminidases of different strains of influenza viruses. I, 289, II, 301
- Chick embryo lethal orphan virus, *see* CELO virus
- Clostridium welchii*, factors affecting lecithinase activity and production in, 153
- Clostridium welchii*, haemolytic activity of the alpha and theta toxins of, 163
- Coconut, desiccated, investigations into the contamination of, 719
- Conjunctivitis and subclinical infection in smallpox, 631
- Contamination of Ceylon desiccated coconut, 719
- Cooked-meat slicing machines and cleaning cloths, cross-contamination by, 249
- Coumatetralyl, some rodenticidal properties of, 311
- Cowpox and other poxviruses, variability in the characteristics of pocks produced by white pock mutants of, 637
- Coxiella burnetii* in North-Western England and North Wales, 125
- Cream, the source of bacteria in, and the methylene blue reduction test as a guide to hygienic quality, 401
- Cross-contamination by cooked-meat slicing machines and cleaning cloths, 249
- Cross-infection in an intensive care unit, control of, 525
- Cyclone separator for aerosol sampling in the field, 387
- Detoxification of an immunogenic fraction from a culture filtrate of *Pseudomonas aeruginosa*, 241
- Diagnosis of respiratory virus infections in childhood, study of methods for, 659
- Dissemination and immunogenicity of live TRIC agent in baboons after parenteral injection. II. Experiments with a 'slow-killing' strain, 449

- Dose-response relationships of lymphocytic choriomeningitis viruses in mice and L cell tube cultures, 269
- Effectiveness of an isolation ward, studies on, 649
- Encephalitis, tick-borne, a new approach to development of a live vaccine against, 13
- Enrichment broth media using strontium chloride or strontium selenite in the isolation of *Salmonella*, 457
- Enzootic pneumonia in pigs; immunity in the experimentally induced disease, 193; some experiments relating to artificial immunity, 465
- Epidemiological studies on *Salmonella senftenberg*. I, 81; II, 89
- Feline infectious enteritis virus, the development of feline cell lines for the growth of, 115
- Food, uncooked, salmonellas, shigellas and enteropathogenic *Escherichia coli* in, 187
- Foot-and-mouth disease outbreak in Worcestershire, 21
- Foot-and-mouth disease virus, airborne excretion of, 671
- Freeze-thawed T 4 bacteriophage, some factors affecting the viability of. I, 107; II, 679
- Freeze-drying for the preservation of bacteriophage H 1 of *Corynebacterium ulcerans* U 103, 573
- Frequency of rubella antibodies among adult population in Greece, 175
- Glutamate medium, minerals-modified, for the enumeration of coliform organisms in water, 367
- Haemolytic activity of the alpha and theta toxins of *Clostridium welchii*, 163
- Haemorrhagic smallpox, 619
- Henderson apparatus, a mobile form of, 437
- HI antibody to various influenza viruses and adenoviruses in individuals of blood groups A and O, 67
- Hymenolepis nana*, the effect of on immunity to tuberculosis in mice, 233
- Immunity in experimentally induced enzootic pneumonia of pigs, 193
- Immunity, artificial, in enzootic pneumonia of pigs, 465
- Immunogenic fraction from a culture filtrate of *Pseudomonas aeruginosa*, detoxification of, 241
- Infections with adenovirus types 4, 7 and 21 in military recruits, 255
- Influenza A 2 epidemics, the influence of antigenic variation on, 551
- Influenza A 2 virus neuraminidase, antibody against in human sera, 353
- Influenza B, live vaccine in volunteers, 1
- Influenza in Britain, 1967-68, 559
- Influenza vaccine, aqueous, simple emulsion and multiple emulsion, antibody response to, 485
- Influenza viruses, the chemical reactions of the haemagglutinins and neuraminidases of different strains of. I, 289; II, 301
- Intensive care unit, control of cross-infection in, 525
- Isolation of parainfluenza 4 subtypes A and B in England, and serological studies of their prevalence, 545
- Isolation ward, studies of the effectiveness of, 649
- Lecithinase activity and production in *Clostridium welchii*, 153
- Linen chutes, bacterial contamination of the surface of, 427
- Live influenza B vaccine in volunteers, 1
- Live vaccine against tick-borne encephalitis, a new approach to development of, 13
- Louping-ill virus, resistance against infection with, in sheep immunized with a highly attenuated tick-borne encephalitis virus, 731
- Lymphocytic choriomeningitis viruses, dose response relationships in mice and L cell tube cultures, 269
- Medium for routine isolation of *Salmonella* by selective motility, 181
- Meningococci of group A, sulphadiazine-resistant strains isolated during the 1968 meningitis epidemic in Greece, 279

- Methylene blue reduction test as a guide to hygienic quality of fresh cream, 401  
 Minerals-modified glutamate medium for the enumeration of coliform organisms in water, 367  
 Mobile form of the Henderson apparatus, 437  
*Mycoplasma hominis*, the antigens of, 585  
*Mycoplasma pneumoniae*-cell relationships, quantitative aspects of in cultures of lung diploid fibroblasts, 375  
 Myxomatosis, selection for resistance in domestic rabbits, 743
- Natal coast, sewage pollution along a section of, 209  
 Neuraminidase of influenza A 2 virus; antibody against in human sera, 353  
 Neutralization tests with varicella-zoster virus, 343  
 New nephritogenic streptococcus, 691
- Operating suites, transfer areas and clean zones in, 417  
 Overlap and the errors of plaque counting. I, 317, II, 335
- Panleucopaenia virus, the development of feline cell lines for the growth of, 115  
 Pantothenate-requiring dwarf colony variants of *Staphylococcus aureus* as the etiological agent in bovine mastitis, 511  
 Parainfluenza 4 subtypes A and B, their isolation in England and serological studies of their prevalence, 545  
 Particles contaminating a medium, tables of the upper limit to the estimate of the density of, 533  
 Plaque counting, overlap and the errors of. I, 317; II, 335  
 Protection from microbial contamination in a room ventilated by a uni-directional air flow, 95  
*Pseudomonas aeruginosa*, detoxification of an immunogenic fraction from a culture filtrate of, 241
- Quantitative aspects of *Mycoplasma pneumoniae*-cell relationships in culture of lung diploid fibroblasts, 375
- Reptiles and man as carriers of *Salmonella* and Arizona in Western Australia, 135  
 Respiratory virus infections in childhood; a study of methods for their diagnosis, 659  
 Rodenticidal properties of coumatetralyl, 311  
 Rubella antibodies among adult population in Greece, 175
- Salmonella*, a selective motility medium for routine isolation of, 181  
*Salmonella*, strontium chloride and strontium selenite enrichment broth media in the isolation of 457  
*Salmonella* and Arizona in reptiles and man in Western Australia, 135  
*Salmonella* excretion by pet terrapins, 505  
*Salmonella senftenberg*, epidemiological studies on. I, 81; II, 89  
*Salmonella senftenberg* in the Sunderland area, 75  
 Salmonellas in sewage. A study in latent human infection, 517  
 Salmonellas, shigellas and enteropathogenic *Escherichia coli* in uncooked food, 187  
 Schoolchildren, secondary, thermal requirements of in winter, 59  
 Selection for resistance to myxomatosis in domestic rabbits, 743  
 Selective motility medium for routine isolation of *Salmonella*, 181  
 Sewage pollution along a section of the Natal coast, 209  
 Sewage, salmonellas in. A study in latent human infection, 517  
 Slicing machines for cooked meat, and cleaning cloths; cross-contamination by, 249  
 Smallpox, antibody response following vaccination and revaccination, 603  
 Smallpox, conjunctivitis and subclinical infection in, 631  
 Smallpox, haemorrhagic, 619  
 Smallpox, non-haemorrhagic, antibody response in, 609  
*Staphylococcus aureus*, importance of the carrier state as a source of in wound sepsis, 49  
*Staphylococcus aureus*, pantothenate-requiring dwarf colony variants of as the etiological agent in bovine mastitis, 511  
*Staphylococcus aureus*, selection of in cultures from air samples, 35

- Streptococcal infection in young pigs. III. The immunity of adult pigs investigated by the bactericidal test, 491
- Streptococcus, a new nephritogenic strain of, 691
- Strontium chloride and strontium selenite enrichment broth media in the isolation of *Salmonella*, 457
- Sulphadiazine-resistant group A meningococci isolated during the 1968 meningitis epidemic in Greece, 279
- Tables of the upper limit to the estimate of the density of contaminating particles in a medium, 533
- Tapeworm *Hymenolepis nana*, its effect on immunity to tuberculosis in mice, 233
- Terminal bronchopneumonia. A bacteriological and histological study of 111 necropsies, 477
- Thermal requirements of secondary schoolchildren in winter, 59
- Tick-borne encephalitis, a new approach to development of live vaccine against, 13
- Tick-borne encephalitis virus, resistance against louping-ill virus in sheep immunized with a highly attenuated strain of, 731
- Toxins of *Clostridium welchii*, haemolytic activity of, 163
- Toxoplasma antibodies in sera from Hong Kong, 739
- Trachoma vaccine field trials in The Gambia, 699
- Transfer areas and clean zones in operating suites, 417
- Treatment and isolation rooms, air movement control for, 255
- TRIC agent, dissemination and immunogenicity in baboons after parenteral injection. II. Experiments with a 'slow-killing' strain, 449
- Tuberculosis in mice, effect of the tapeworm *Hymenolepis nana*, 233
- Uni-directional air flow, protection from microbial contamination in a room ventilated by, 95
- Vaccine, live influenza B in volunteers, 1
- Vaccine, live against tick-borne encephalitis, 13
- Vaccines, egg-grown, possibility of contamination with chick embryo lethal orphan (CELO) virus, 41
- Vaccines, influenza, aqueous, simple emulsion and multiple emulsion, antibody response and reactions to, 485
- Variability in the characteristics of pocks produced on the chick chorioallantois by white pock mutants of cowpox and other poxviruses, 637
- Ventilation by a uni-directional air flow as protection from microbial contamination in a room, 95
- Viability of freeze-thawed T 4 bacteriophage, factors affecting. I, 107; II, 679.
- Vibrio culture filtrate and vaccine El Tor vibrio, antigenic analysis of, 539
- Viruses: adeno, 67, 255; CELO, 41; feline infectious enteritis, 115; foot-and-mouth, 671; influenza, 67, 289, 301, 353, 551; louping-ill, 731; lymphocytic choriomeningitis, 269; panleucopaenia, 115; parainfluenza, 545; pox, 637; respiratory, 659; tick-borne encephalitis, 13, 731; varicella-zoster, 343
- Water; a minerals-modified glutamate medium for the enumeration of coliform organisms in, 367
- Winter vomiting disease. An outbreak in a university hall of residence, 147
- Wound sepsis; the importance of the carrier state as a source of *Staphylococcus aureus* in, 49
- Young pigs, streptococcal infection in, 491
