A vital source of information on  
Canadian society and international  
trends in the discipline

The *Canadian Journal of Sociology/Cahiers canadiens de sociologie* is published quarterly at the University of Alberta. Since its founding in 1975, it has become a leading source of information on Canadian society, as well as new trends in the discipline internationally. Articles published represent a wide spectrum of sociological topics, perspectives, and approaches. Regular features include a book review section of important publications for research and teaching; "Notes on Society", a forum for commentary on issues at the forefront of society; and a comments section, for discussion and debate between readers and authors. Several special issues exploring specific areas of the discipline have recently included Quebec society, historical sociology, and moral regulation. Abstracts of all articles are printed in English and French.
