Modern Editions of Classic Works for Today's Readers

CATO'S LETTERS

ESSAYS ON LIBERTY

In Two Volumes

By John Trenchard and

Thomas Gordon

Edited by Ronald Hamowy

As Clinton Rossiter once observed, *Cato's Letters* "was the most popular, quotable, esteemed source of political ideas in the colonial period." Published anonymously by the Englishmen John Trenchard and Thomas Gordon in *The London Journal* from 1720 to 1723, the 144 letters provide a compelling theoretical basis for freedom of conscience and freedom of speech. Virtually half the private libraries in the American colonies contained bound volumes of *Cato's Letters.* This Liberty Fund edition is based on the text of 1755.

1,511 + xlvi pages in the two volumes, index.

"Conceived in Liberty"

For a nation "conceived in liberty," the study of the ideal of a society of free and responsible individuals is a never-ending obligation. To encourage this deliberation, Liberty Fund—a private educational foundation established in 1960—makes available a wide range of outstanding books. In keeping with the Fund's mission, books are both beautifully produced and priced to ensure their availability to all serious readers. Each title explores some aspect of the interrelationship of liberty and responsibility in individual life, society, governance, or economics. Accordingly, our publications include the works of Adam Smith, David Hume, Lord Acton, Ludwig von Mises, Nobel laureates F. A. Hayek and James Buchanan, crucial political writings of the American founding era, and other landmark works in philosophy, law, social and political thought, and education. We invite you to request a free copy of our catalogue.

The Political and Legal Philosophy of James Wilson, 1742–1798

Mark David Hall

Although James Wilson was a central figure in early American politics, he has largely been overlooked and is perhaps the most underrated of the founders. Mark David Hall fills a void in the literature of this subject by providing a comprehensive analysis of Wilson's political and legal philosophy. By placing him in the context of the history of ideas, and by showing how his political theory influenced his concrete contributions to the creation of the American republic, Hall reveals Wilson's views of morality, epistemology, and human nature.

International and Interdisciplinary Perspectives on Eric Voegelin

Edited by Stephen A. McKnight and Geoffrey L. Price

This collection of essays by such leading scholars as Jürgen Gebhardt, Frederick Lawrence, David Levy, Klaus Vondung, and Eugene Webb explores the evolution of Voegelin's theory from his history of political ideas of the 1940s to his philosophy of consciousness of the 1980s. Accompanying these provocative essays is an extensive topical bibliography of recent international scholarship on Voegelin.

240 pages, $39.95

The Growth of the Liberal Soul

David Walsh

"David Walsh has brought to his topic not only the breadth of learning of an accomplished scholar but the spiritual sensitivity of a mature personality. This is very rare at any time and is virtually nonexistent today. Accordingly, *The Growth of the Liberal Soul* promises to be a major addition to political philosophy. The topic is important and Walsh's analysis of it is superb."—Barry Cooper
