Cardinal, McKesson, and
Morris & Dixon.

Be Prepared for the Unexpected!

Protopam (pralidoxime chloride) is indicated as an antidote in the treatment of poisoning due to those pesticides and chemicals of the organophosphate class which have anticholinesterase activity.*

- ★ Available now exclusively from Baxter
- ★ Contact your wholesaler or Baxter ACC Customer Service at 800-667-0959.
- ★ Baxter, We're Listening

Protopam is not effective in the treatment of poisoning due to phosphorous, inorganic phosphates, or organophosphates not having anticholinesterase activity. **Protopam** is **not** indicated as an antidote for intoxication by pesticides of the carbamate class since it may increase the toxicity of carbaryl.

When atropine and pralidoxime are used together, the signs of atropinization (flushing, mydriasis, tachycardia, dryness of the mouth and nose) may occur earlier than might be expected when atropine is used alone.

Protopam Chloride (pralidoxime chloride)

Baxter

Baxter Healthcare Corporation

95 Spring Street, New Providence, NJ 07974
1-800-ANA-DRUG (262-3784)

*For complete information on indications, please refer to Full Prescribing Information. Please see brief summary of Prescribing Information on the adjacent page.

Bringing Simulation to Life

SimMan®

There is a growing awareness that health care is behind other high risk operations in its attention to ensuring basic safety and that there is a need to grasp the scale of the problem ^(1,2).

Use of patient simulation is considered an important part of the solution as many scenarios can be presented including uncommon but critical situations where a rapid response is needed. Errors can be allowed to occur and reach their conclusion without any risk to a patient. Team member interactions and leadership can also be explored and developed.

Two manikin-based simulators from Laerdal, SimMan® and AirMan®, represent a new generation of affordable and portable solutions to meet these needs.

The Task Force on Quality Control of Disaster Management,
The World Association for Disaster and Emergency Medicine,
and the Nordic Society for Disaster Medicine now present:

Health Disaster Management Guidelines for Evaluation and Research in the Utstein Style

Editors: Knut Ole Sudnes, MD
Professor Marvin Birnbaum, MD, PhD

Available for \$49.95, or free with a subscription to *Prehospital and Disaster Medicine*, this important work provides a conceptual framework for reporting disaster responses and evaluation, and includes a comprehensive glossary of terms.

For ordering or subscription information, call 01 608-263-2069, email a request to pdm@medicine.wisc.edu, or fax a subscription insert found in each issue of the journal to 01 608-265-3037.

All royalties go to the support of the development of evaluation and research for
Disaster Medicine

BE PART OF THE SOLUTION!

JOIN THE WORLD ASSOCIATION FOR DISASTER AND EMERGENCY MEDICINE

*Your esteemed colleagues throughout the world
are working together to forge a new direction for this,
the most exciting and humanitarian branch of medicine.
(Founded in 1976 as The Club of Mainz)*

The Club of Mainz was founded on 02 October 1976 with the goal of improving the worldwide delivery of prehospital and emergency care during everyday and mass disaster emergencies. The founding members were renowned researchers, practitioners, and teachers of acute care medicine who joined together to focus their energies on the scientific, educational, and clinical aspects of immediate care.

Following the constant development of its scope and extension worldwide, and to better reflect its nature, the organization's name was changed to The World Association for Disaster and Emergency Medicine (WADEM).

While WADEM has grown over the years, the founding principles have remained the same. Our members continue to work actively to solve scientific, technical, and political problems surrounding the management of emergency incidents. Through their dedication, and with your help, if you will join us, we can better provide pioneering solutions and meaningful change in our disaster-ridden world.

MEMBERSHIP IN THE WADEM PROVIDES:

- AN ANNUAL SUBSCRIPTION TO *PREHOSPITAL AND DISASTER MEDICINE JOURNAL*
- *INSIGHT*, WADEM'S BIMONTHLY NEWSLETTER
- BOOK ON DISASTER RESEARCH GUIDELINES AND TEMPLATE IN THE UTSTEIN STYLE
- CERTIFICATE OF MEMBERSHIP
- WORLDWIDE DIRECTORY OF MEMBERS
- INTERNATIONAL RECOGNITION AND DISCOUNTED REGISTRATION RATES AT THE WORLD CONGRESSES AND OTHER WADEM MEETINGS

*To join the WADEM, please visit our website or
mail the pull-out card located in this Journal.*
