**CJNS DISTINGUISHED REVIEWER OF THE YEAR for 2020
Presented in October 2021**

David M. Pelz, MD, FRCPC

The Canadian Journal of Neurological Sciences (CJNS) sincerely appreciates the consistent and numerous high quality manuscript reviews that Dr Pelz has provided for the CJNS Journal. This award is based on review statistics from 2020.

Dr. Pelz is an Emeritus Professor in the Departments of Medical Imaging, and Clinical Neurological Sciences at the Schulich School of Medicine and Dentistry, Western University and a Consultant Neuroradiologist at the London Health Sciences Centre, London, Ontario. He has practiced diagnostic and interventional neuroradiology at University Hospital since 1983 with a particular interest in cerebrovascular disease.

A native of Toronto, Ontario, he received his undergraduate and medical education at the University of Western, Ontario. Initially undifferentiated during his radiology residency at Western, he came under the spell of Drs. Fernando Vinuela, Allan Fox, Charles Drake, Henry Barnett and the pioneering neuroscientists in London and his career path was launched.

He still enjoys watching his younger colleagues mastering new interventional techniques and devices, reporting clinical imaging, teaching residents and fellows, and contributing to academic neuroradiology whenever opportunities arise.

Thank you Dr. David Pelz. We appreciate your dedication and support of the CJNS.
