EDITED BY ALEXANDER LUBOTSKY, WITH ASSISTANCE FROM ROBERT BEEKES

OLD FRISIAN ETYMOLOGICAL DICTIONARY

BY DIRK BOUTKAN AND SJOERD MICHIEL SIEBINGA

Due to the lack of lexicographical tools, Old Frisian cognates are rarely included in current etymological dictionaries of Germanic and Indo-European languages, despite the fact that Old Frisian can often provide important clues for their reconstruction. At the same time, it is difficult for the students of Old Frisian to acquire knowledge of the linguistic

prehistory of this language.

With this first etymological dictionary of Old Frisian based on the lexicon of the Riustring 1 manuscript, Old Frisian becomes accessible to a wide circle of scholars of Germanic and Indo-European languages. The latest insights of comparative Indo-European linguistics have been systematically incorporated. The lemmata are provided with a meticulous analysis of Old Frisian dialectal forms, with Proto-Frisian reconstructions, and with a wealth of Germanic and Indo-European cognates.

Boutkan's and Siebinga's work will prove to be an indispensable research tool for the study of the Old Frisian, the Germanic, and Proto-Indo-European languages.
