International Journal of Technology Assessment in Health Care

Official Journal of the International Society of Technology Assessment in Health Care

Editors

Egon Jonsson, Ph.D.
Professor
The Karolinska Institute
and Spri
Stockholm, Sweden

Stanley J. Reiser, M.D., Ph.D.
Professor, Program on Humanities
and Technology in Health Care
Health Science Center at Houston
The University of Texas
Houston, Texas, U.S.A.

Aims and Scope

The International Journal of Technology Assessment in Health Care has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal will be the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal will serve as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

Editorial Office: *International Journal of Technology Assessment in Health Care*, Stanley J. Reiser, Health Science Center at Houston, University of Texas, P.O. Box 20708, 6431 Fannin, Suite 1.500, Houston, Texas 77225, U.S.A., tel. (713) 792-5140; or Egon Jonsson, Karolinska Institute and Spri, P.O. Box 27310, 10254 Stockholm, Sweden, tel. 46-8-630560.

Publishing, Production, and Advertising Offices: Cambridge University Press, 32 East 57 Street, New York, New York 10022, U.S.A.

Subscription Offices: Cambridge University Press, 510 North Avenue, New Rochelle, New York 10501, U.S.A. (for U.S.A. and Canada); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, England (for U.K. and rest of world).

1987 Subscription Information: *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is published four times a year. Institutional rate: US \$78.00 for U.S.A. and Canada (£40.00 for U.K. and rest of world); Individual rate (prepayment by personal check or credit card only): US \$40.00 (£20.00); Single parts: US \$22.00 (£11.00). Prices include postage and insurance; air mail or registered mail is extra. Back volume prices are available upon request.
