543 List of Referees
institutions and organizations.

The Journal of Institutional Economics is an interdisciplinary journal that will be of interest to all academics working in the social sciences, including in economics, business studies, sociology, politics, geography, anthropology and philosophy. The Journal of Institutional Economics aims to provide all authors with an expert verdict on their articles within 90 days of submission.

Submission

All manuscripts must be submitted online via the journal website:
http://mc.manuscriptcentral.com/joie

Detailed instructions for submitting your manuscript online can be found at the instructions for authors link on the journal’s front page. Authors should submit their manuscripts online and sign the corresponding JOIE submission form.

The Editor will acknowledge receipt of the manuscript, provide it with a manuscript reference number and assign it to a referee. The reference number of the manuscript should be quoted in all correspondence with the JOIE Office and Publisher.

Articles

There must be no indication of the personal identity or institution of any author of the article within the article itself, or in the correspondence to the Journal. Papers with some formal content will be considered if it is fully explained for a general reader, or feasible socio-economic institutions. JOIE is not interested in the advancement of formal or economic technique for their own sake.

The front page of the electronic file of the article should include the following information: the title; an abstract of the article of up to 120 words; the name of the author; the name of the author’s institution; the email address of the corresponding author; the contact telephone number; and the number of words in the article (including footnotes and references), must accompany or be within the first 100 words of the article.

Papers should be submitted in electronic format only. Manuscripts that do not comply with these requirements will not be considered for publication. The maximum word count for articles (including footnotes and references) must be no more than 9,000 words. In special cases, such as an extended review or survey article, this limit may be extended to 12,000 words. A declaration of the total word count (including footnotes and references) must accompany or be within the first 100 words of the article.

Papers with some formal content will be considered if it is fully explained for a general reader, or feasible socio-economic institutions. JOIE is not interested in the advancement of formal or economic technique for their own sake.
