

THE FEMALE IN IBERO-AMERICA

Lewis's work affords insight into the life and attitudes of women in five differing class group families. See also:

MORTON, WARD M.

1962 *Woman Suffrage in Mexico*. Gainesville. Florida.

Here is a fine study of Mexico's feminist movement and could provide a model for future studies of other Latin American suffrage movements.

MUNDO NUEVO

1970 April issue.

The April issue of this journal was devoted entirely to a critical examination of the topic "machismo y feminismo." Of particular interest are the discussions on the relationship between women and Catholicism.

ADDENDUM

COHEN, LUCY

1972 *Las Colombianas ante la renovación universitaria*. Bogotá.

Anthropologist Cohen's study of the "first generation" of women in the professions in Colombia is a solid contribution to the study of the role of women in the evolution of contemporary Colombian society.
