American Images of Soviet Foreign Policy

by William Welch

The ways in which members of the American academic community look at the activities of the other major protagonist in the great international drama of our age are the subject of this study. Mr. Welch has singled out for analysis twenty-two books on Soviet foreign policy written in the last twelve years by leading scholars in the field—Kennan, Mosely, Schuman, Strausz-Hupé, Shulman, Wolfe, and others—and finds scholarship in this field generally deficient. He suggests methods for improving it and for bringing images more nearly into a single focus.

Selected Readings on Anarchism and Revolution

by P. A. Kropotkin

edited, with an introduction by Martin A. Miller

Kropotkin, the anarchist prince, sought to redefine anarchism as a philosophy of civilization that was antithetical to terrorist acts and assassination. His political system of anarchist communism was based on the idea that all external authority was corrupt. He questioned the legitimacy of every form of government and criticized the injustice of every institution based on authority.

The editor of this anthology writes that anarchism in the late nineteenth century "combined within itself the extremes of intellectuals such as Kropotkin and Tolstoy, surrounded by an aura of unimpeachable moral conduct, together with assassins and bandit-outlaws such as Ravachol and Sazonov. What these widely disparate individuals shared was a common attitude toward society and the state. It was an attitude of profound alienation cutting across all social class lines from urban aristocrat to rural peasant."

History and Class Consciousness

by Georg Lukács

translated by Rodney Livingstone

This is the first time one of the most important of Lukács' early theoretical writings, published in Germany in 1923 has been made available in English. The book consists of a series of essays treating, among other topics, the definition of orthodox Marxism, the question of legality and illegality, Rosa Luxemburg as a Marxist, the changing function of Historic Materialism, class consciousness, and the substantiation and consciousness of the Proletariat.

Black Torrent

by Leopold Buczkowski

A novel of the outer limits of human endurance, in which Jewish, Polish, and Ukrainian partisans struggle for survival under the German occupation. The author evokes a hallucinatory atmosphere, bringing blurred events into focus with nightmare-like unexpectedness and suddenness.

Cloak of Illusion

by Stanislaw Dygat

Stanislaw Dygat is well known as a writer of gently satiric novels and short stories. His "casually structured plots go together with a colloquial, nonchalant language." (Czeslaw Milosz, *History of Polish Literature*) In this, his latest novel, the hero is a member of the disaffected young generation of Eastern Europe.

A Dreambook for Our Time

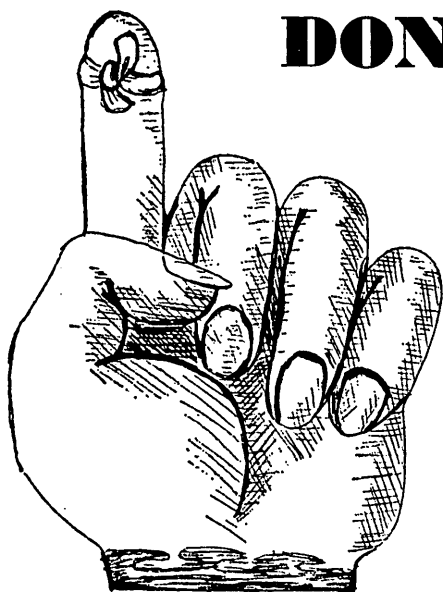

by Tadeusz Konwicki

Called "one of the most terrifying novels in postwar Polish literature, . . . greeted upon its appearance (in 1963) as a major literary sensation." (Milosz). The author's talents as a film director and script writer, which won him a Grand Prix at Venice for *The Last Day of Summer*, have helped shape his novelistic techniques.

EASTERN HISTORY

THE EMPIRE OF THE STEPPES

A History of Central Asia
René Grousset

Translated from the French by Naomi Walford. The first English language edition of a great historian's epic account of the nomads of Central Asia. Here are the steppe nomads – from prehistory to their last mighty conqueror, Tamerlane.

"A major achievement of this eminent Orientalist . . . describes the origins and accomplishments of these men and their ways of life and the force which they controlled and to which they ultimately fell victim." – *The Kirkus Reviews*. 708 pages, 19 maps, notes, index. SBN 8135-0627-1. *A selection of the History Book Club.* \$17.50

THE SLAVS IN EUROPEAN HISTORY AND CIVILIZATION

Francis Dvornik. Drawing upon original sources in Latin, Greek and Old Slavonic, the author presents a complete, chronologically arranged history of the Slavic peoples and their neighbors from the Middle Ages through the early modern period. He describes the influence of the rest of Europe on the Slavs and the contribution of the Slavs to the political and cultural growth of the world. 700 pages, notes, tables, maps, index. SBN 8135-0403-1. \$17.50

ORIGINS OF THE GREEK NATION: The Byzantine Period, 1204-1461

Apostolos Vacalopoulos. *Translated by Ian N. Moles.* Originally published in Greek and accorded a most favorable international scholarly reception, this comprehensive volume traces the historical origins of the modern Greek nation and its place in contemporary civilization. Especially important for an in-depth understanding of the present history of Greece. 450 pages, 12 maps, 20 photographs, notes, index. SBN 8135-0659-X. \$20.00

BYZANTINE MISSIONS AMONG THE SLAVS: SS. Constantine—Cyril and Methodious

Francis Dvornik. The renowned Byzantine specialist re-examines the role which Byzantium played in the Christianization of the Slavic nations on the basis of new archaeological discoveries made from 1948 to 1968. The book covers the beginnings of Slavic cultural history and especially the influence of these two saint-missioners on Slavic civilization and its institutions. 520 pages, 21 illustrations, 2 maps, 3 appendices, notes, bibliography, index. Interest Groups in Soviet Politics

Edited by H. GORDON SKILLING
and FRANKLYN GRIFFITHS

The role of elite groups in Soviet policy formulation is analyzed: Jerry F. Hough writes on the party *apparatchiki*; Frederick C. Barghoorn on the security police; Roman Kolkowicz on the military; John P. Hardt and Theodore Frankel on the managers; Richard W. Judy on the economists; Ernest J. Simmons on the writers; Donald D. Barry and Harold J. Berman on the jurists. Chapters by H. Gordon Skilling and Franklyn Griffiths set the context of the discussion and give a dissenting opinion on the importance of interest groups in Soviet politics.

Science in Russian Culture 1861-1917

ALEXANDER VUCINICH

This volume, the second in a series of three, is a comprehensive history of modern Russian science from the great flowering of the 1860's to the beginning of the Soviet era. The author views the growth of modern Russian intellectual culture from the standpoint of the development of scientific thought. He traces the growth of the main scientific traditions, the changes in scientific and social philosophy, and the relation of science to ideology, religion, and education. Considerable attention is paid to the institutional base of Russian science and to the impact of the leading Western thinkers on Russian scientific thought. \$18.50

The Church Reform of Peter the Great

JAMES CRACRAFT

The church reform of Peter the Great quite possibly contributed more to the modernization of Russia than any of his other celebrated reforms. It destroyed forever the quasi-theocracy of medieval Muscovy, thus irreversibly setting in motion the secularization of Russian society. The history of this reform, as described and analyzed in this book, tells us much about the man and the critical times in which he reigned. In particular, it describes in detail the establishment and early activities of the Holy Synod, which together with the Imperial system, was to survive until 1917. \$13.50

Soviet Image of Contemporary Latin America

A Documentary History, 1960-1968

Compiled and translated from Russian by J. Gregory Oswald

With an Introduction by Herbert S. Dinerstein

Edited by Robert G. Carlton

This compilation of translated Soviet Russian writings on the contemporary Latin American scene presents a cross section of various official and academic viewpoints. The views expressed in these writings are basically structured within the general framework of Marxist-Leninist principles of historical interpretation. They indicate, however, that within this framework a surprisingly wide range of opinions and interpretations of contemporary political, economic, and social phenomena is possible.
