

# NOTES FOR AUTHORS

## Submitting a paper

Full details on submitting a paper, including the style guide and L<sup>A</sup>T<sub>E</sub>X class file and macro package, can be found at <https://www.cambridge.org/core/journals/proceedings-of-the-royal-society-of-edinburgh-section-a-mathematics/information/instructions-contributors>

*Proceedings of the Royal Society of Edinburgh: Section A* considers for publication papers in all areas of mathematics. Please note that this journal does not consider simultaneous submissions from the same author.

- Authors will be asked to state the primary AMS 2010 Classification Number and between three and six keywords.
- Authors should nominate the most appropriate Editor for their paper.
- It is assumed that the author uploading the paper will be responsible for correspondence. A paper by more than one author should be approved in its entirety by the joint authors. An acknowledgement e-mail will be sent to all authors.
- *Proceedings A* has a page limit of 25pp but may consider papers up to five pages longer to allow for variation in final typeset length. Authors must prepare their papers as concisely as possible. Longer papers can be difficult to review in a reasonable time and can be judged more harshly.
- Each paper must be accompanied by an abstract, in general not exceeding 200 words, which will be printed.
- References should be listed at the end of the paper in alphabetical order, numbered sequentially. References within the text should be indicated by numbers in square brackets.

To submit your paper visit [https://rse.msp.org/submit\\_new.php?jpath=rse\\_proc\\_a\\_math](https://rse.msp.org/submit_new.php?jpath=rse_proc_a_math) and follow the instructions for uploading.

Once a paper has been accepted for publication, authors will be asked to supply the appropriate file. This should be a single file, with any relevant macros included in the preamble, and named after the article reference number (e.g. 150421-authorname.tex). Figures should be submitted as eps or pdf files at the same time as the code for the paper. Detailed instructions will be given on acceptance.

## Language

We recommend that non-English-speaking authors have their manuscripts checked by an English language native speaker before submission, to ensure that submissions are judged exclusively on academic merit. Third-party services specialising in language editing and/or translation can be found here: <https://www.cambridge.org/core/services/authors/language-services>. Use of any of these services is voluntary, and at the authors' own expense.

## Proofs and offprints

Authors will be sent proofs of their paper by e-mail in pdf format for checking. A pdf of the final 'publisher's version' of the paper will be sent to the corresponding author shortly after print publication in lieu of hard copy offprints.

## Copyright/Open Access

The RSE now operates a 'hybrid' Open Access model for its journals, for accepted papers submitted on or after 1 April 2013. On acceptance, authors will be given the option of having their paper published **either** under a regular publication agreement **or** under a fully Open Access agreement. Under the regular publication option, authors will be asked to sign the Journal's standard transfer of copyright form.

If authors choose the Open Access option, they will be asked to sign the alternative Open Access form and, upon payment of a one-off Article Processing Charge of UK£1780/US\$2835 (in 2017), the final published Version of Record shall be made freely available to all in perpetuity, and will be published under a creative commons licence, enabling its free re-use and re-distribution.

Please note that publication under a fully Open Access agreement is part of the Cambridge Open option. (For more details, please see: <https://www.cambridge.org/core/services/open-access-policies>)

Authors are also asked to ensure that any electronic versions of their paper clearly state the official place of publication.

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, papers published in *Proceedings A* may only be reproduced, stored or transmitted with the prior permission of the copyright holder, or, in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. The Society permits the making of a single photocopy of an article from an issue (under Sections 29 & 38 of the Act) for an individual for the purposes of research or private study.

## CONTENTS

LUCAS BACKES AND DAVOR DRAGIČEVIĆ	
Shadowing for infinite dimensional dynamics and exponential trichotomies	863–884
FRANCESCA GLADIALI	
A monotonicity result under symmetry and Morse index constraints in the plane	885–915
JASON J. BRAMBURGER	
Isolas of multi-pulse solutions to lattice dynamical systems	916–952
CHAO ZHANG AND XIA ZHANG	
Some further results on the nonlocal $p$ -Laplacian type problems	953–970
ANASTASIYA RYTOVA AND ELENA YAROVAYA	
Heavy-tailed branching random walks on multidimensional lattices. A moment approach	971–992
CANJUN MENG, HAN WANG AND WEI ZHAO	
Hardy type inequalities on closed manifolds via Ricci curvature	993–1020
JOŠE BONET, WOLFGANG LUSKY AND JARI TASKINEN	
On decay rates of the solutions of parabolic Cauchy problems	1021–1039
BENJAMIN D. GODDARD, TIM D. HURST AND MARK WILKINSON	
A derivation of the Liouville equation for hard particle dynamics with non-conservative interactions	1040–1074
MARIUS GHERGU, PASCHALIS KARAGEORGIS AND GURPREET SINGH	
Quasilinear elliptic inequalities with Hardy potential and nonlocal terms	1075–1093
ZENG ZHANG	
A convergence to the Navier–Stokes–Maxwell system with solenoidal Ohm’s law from a two-fluid model	1094–1115
ZHIJUN ZHANG	
Optimal global asymptotic behaviour of the solution to a class of singular Dirichlet problems	1116–1134
