

# STUDIES IN SECOND LANGUAGE ACQUISITION

## Information for Contributors

For guidelines and requirements regarding manuscript submission, please consult the *SSLA* website at <http://journals.cambridge.org/sla>. Click on the Journal Information tab which will lead you to Information for Contributors. Potential authors are advised that all manuscripts are internally reviewed for both content and formatting/style in order to determine their suitability for external evaluation.

**Research Article.** These manuscripts may be essays or empirical studies, either of which must be motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 11,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 11,000 word limit).

**Research Report.** These manuscripts are shorter empirical studies motivated by current theoretical issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design. Very often, these are narrowly focused studies or they present part of the results of a larger project in progress. The background and motivation sections are generally shorter than research articles. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

**Replication Study.** These manuscripts are shorter empirical studies motivated by a previously published study (not necessarily one published in *SSLA*). The background and motivation sections will necessarily be shorter compared to research articles as the maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

**State-of-the-Scholarship Article.** These manuscripts are essays that review the extant research on a particular theme or theoretical issue, offering a summary of findings and making critical observations on the research to date. Manuscripts in this category typically fall within the 11,000-word limit of regular research articles; however, longer manuscripts may be considered on a case-by-case basis.

**Critical Commentary.** These manuscripts are shorter essays (i.e., non-empirical) motivated by current theory and issues in second and subsequent language acquisition or heritage language acquisition, including methodological issues in research design and issues related to the context of learning. Maximum length is 6,000 words all-inclusive (i.e., abstract, text, tables, figures, references, notes, and appendices intended for publication must all fall within the 6,000 word limit).

**Methods Forum.** Recognizing the need to discuss and advance SLA research methods, these manuscripts seek to advance methodological understanding, training, and practices in the field. Submissions can be conceptual or empirical; we also encourage articles introducing novel techniques. All research paradigms, epistemologies, ontologies, and theoretical frameworks relevant to SLA are welcome. The target length is up to 11,000 words, although longer manuscripts will be considered with justification.

All manuscripts in all categories are peer reviewed and subject to the same high standards for publication in *SSLA*.

# Studies in Second Language Acquisition

## Volume 42 Number 4 September 2020

---

### EDITORIAL

- Introducing the SSLA Methods Forum*  
Susan Gass and Luke Plonsky 667

### RESEARCH ARTICLES

- Predicting L2 Fluency from L1 Fluency Behavior: The Case of L1 Turkish and L2 English Speakers*  
Zeynep Duran-Karaoz and Parvaneh Tavakoli 671
- Oral Language Profiles of English Second Language Learners in Adolescence: Cognitive and Input Factors Influence How They Compare to their Monolingual Peers*  
Adriana Soto-Corominas, Johanne Paradis, Brian V. Rusk, Stefka Marinova-Todd, and Xuan Zhang 697
- Schematic Diagrams in Second Language Learning of English Prepositions: A Behavioral and Event-Related Potential Study*  
Helen Zhao, Shuting Huang, Yacong Zhou, and Ruiming Wang 721
- Incidental Vocabulary Learning through Viewing Video: The Role of Vocabulary Knowledge and Working Memory*  
Maribel Montero Perez 749
- Sociolinguistic Competence and Interpreting Variable Structures in a Second Language: A Study of the Copula Contrast in Native and Second-Language Spanish*  
Matthew Kanwit and Kimberly L. Geeslin 775
- Age of Onset, Type of Exposure, and Ultimate Attainment of L2 Morpho-Syntactic Sensitivity*  
Eun-Kyoung Rosa Lee 801
- Integration of Verbal and Constructional Information in the Second Language Processing of English Dative Constructions*  
Hyunwoo Kim, Gyu-Ho Shin, and Haerim Hwang 825
- Sample Size Planning in Quantitative L2 Research: A Pragmatic Approach*  
Reza Norouzian 849

### RESEARCH REPORTS

- How Knowledgeable are Applied Linguistics and SLA Researchers about Basic Statistics? Data from North America and Europe*  
Shawn Loewen, Talip Gönülal, Daniel R. Isbell, Laura Ballard, Dustin Crowther, Jungmin Lim, Jeffrey Maloney, and Magda Tigchelaar 871
- The Influence of Emotional and Foreign Language Context in Content Learning*  
Candice Frances, Angela De Bruin, and Jon Andoni Duñabeitia 891
- Examining the Effects of Explicit Pronunciation Instruction on the Development of L2 Pronunciation*  
Runhan Zhang and Zhou-min Yuan 905
- Exploring the Veridicality and Reactivity of Subjective Measures of Awareness: Is a "Guess" Really a Guess?*  
Rebecca Sachs, Phillip Hamrick, Timothy J. McCormick, and Ronald P. Leow 919
