British Journal of Nutrition
An International Journal of Nutritional Science
Volume 103, 2010 ISSN: 0007-1145

Aims and Scope

The *British Journal of Nutrition* is an international, peer-reviewed journal publishing original papers, review articles, short communications and technical notes on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. Correspondence is encouraged in a Nutrition Discussion Forum. The Journal recognizes the multidisciplinary nature of nutritional science and encourages the submission of material from all of the specialities involved in research and clinical practice. The Journal also publishes supplements on topics of particular interest.

The *British Journal of Nutrition* is published twice monthly by Cambridge University Press on behalf of
The Nutrition Society.

The *British Journal of Nutrition* is available online to subscribers at journals.cambridge.org/bjn

Tables of contents and abstracts are available free at the same website.

Editor-in-Chief

P C Calder, *School of Medicine, University of Southampton, Southampton, UK*

Deputy Editors

F Bellisle, *INRA, University of Paris, Bobigny, France*

D R Jacobs Jr, *School of Public Health, University of Minnesota, Minneapolis, MN, USA*

R J Wallace, *Gut Health Programme, Rowett Research Institute, Aberdeen, UK*

S J Whiting, *College of Pharmacy and Nutrition, University of Saskatchewan, Saskatoon, Sask., Canada*

Reviews Editor

J C Mathers, *School of Clinical Medical Sciences, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Supplements Editor

C Seal, *School of Agriculture, Food and Rural Development, University of Newcastle upon Tyne, Newcastle upon Tyne, UK*

Book Reviews Editor

O B Kennedy, *School of Food Biosciences, University of Reading, Reading, UK*

Editorial Board

H Zdravics and C Isherwood (*Publications Officers*), C T Hughes (*Sub-editor*)

The Nutrition Society has as its objective the advancement of the scientific study of nutrition and its applications to the maintenance of human and animal health.

Application of membership is invited from anyone whose work has contributed to the scientific knowledge of nutrition, whether such work has been in the laboratory, the field or the clinic, and whether experimental, clinical, agricultural or statistical in nature. There is also a student membership scheme with reduced subscriptions.

Particulars of The Nutrition Society and application forms for membership are available from The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, London W6 7NJ, UK. Tel: +44 (0)20 7602 0228, Fax: +44 (0)20 7602 1756, Email: office@nutsoc.org.uk

Contents

Review Article

Health effects with consumption of the flax lignan secoisolariciresinol diglucoside.

J. L. Adolphe, S. J. Whiting, B. H. J. Juurink, L. U. Thorpe & J. Alcorn 929–938

Short Communication

Effects of a short-term overfeeding with fructose or glucose in healthy young males.

E. T. N. Sock, K.-A. Lê, M. Ith, R. Kreis, C. Boesch & L. Tappy 939–943

Molecular Nutrition

Bioavailability of procyanidin dimers and trimers and matrix food effects in *in vitro* and *in vivo* models.

A. Serra, A. Macià, M.-P. Romero, J. Valls, C. Bladé, L. Arola & M.-J. Motilva 944–952

High-starch diets induce precocious adipogenic gene network up-regulation in *longissimus lumborum* of early-weaned Angus cattle.

D. E. Graugnard, L. L. Berger, D. B. Faulkner & J. J. Loor 953–963

Metabolism and Metabolic Studies

The effects of branched-chain amino acid interactions on growth performance, blood metabolites, enzyme kinetics and transcriptomics in weaned pigs.

M. K. Wiltfordsky, M. W. Pfaffl & F. X. Roth 964–976

Differential effect of high dietary fat intakes on haemorheological parameters in rats.

C.-J. Tai, C.-H. Chen, H.-H. Chen & H.-J. Liang 977–983

Maintenance and growth requirements for nitrogen, lysine and methionine and their utilisation efficiencies in juvenile black tiger shrimp, *Penaeus monodon*, using a factorial approach.

L. Richard, P.-P. Blanc, V. Rigolet, S. J. Kaushik & I. Geurden 984–995

Developmental Biology

Supplementation of a maternal low-protein diet in rat pregnancy with folic acid ameliorates programming effects upon feeding behaviour in the absence of disturbances to the methionine–homocysteine cycle.

S. F. Engeham, A. Haase & S. C. Langley-Evans 996–1007

Human and Clinical Nutrition

Effect of dark chocolate on plasma epicatechin levels, DNA resistance to oxidative stress and total antioxidant activity in healthy subjects.

A. Spadafranca, C. M. Conesa, S. Sirini & G. Testolin 1008–1014

Changing the zinc:iron ratio in a cereal-based nutritional supplement has no effect on percent absorption of iron and zinc in Sri Lankan children.

M. Hettiarachchi, C. Liyanage, D. Hilmers, I. Griffin & S. A. Abrams 1015–1022

Demonstrating the safety of manuka honey UMF® 20+ in a human clinical trial with healthy individuals.

A. Wallace, S. Eady, M. Miles, H. Martin, A. McLachlan, M. Rodier, J. Willis, R. Scott & J. Sutherland 1023–1028

Postprandial glycaemic and insulinemic responses to GM-resistant starch-enriched rice and the production of fermentation-related H₂ in healthy Chinese adults.

M. Li, J.-H. Piao, Y. Tian, W.-D. Li, K.-J. Li & X.-G. Yang 1029–1034

Dietary Surveys and Nutritional Epidemiology

Trends in food and nutritional intakes of French adults from 1999 to 2007: results from the INCA surveys.

C. Dubuisson, S. Lioret, M. Touvier, A. Dufour, G. Calamassi-Tran, J.-L. Volatier & L. Lafay 1035–1048

Dietary glycaemic index, dietary glycaemic load and incidence of myocardial infarction in women.

E. B. Levitan, M. A. Mittleman & A. Wolk 1049–1055

Undernutrition, fatty acid and micronutrient status in relation to cognitive performance in Indian school children: a cross-sectional study.

A. Eilander, S. Muthayya, H. van der Knaap, K. Srinivasan, T. Thomas, F. J. Kok, A. V. Kurpad & S. J. M. Osendarp 1056–1064

Behaviour, Appetite and Obesity

Comparison of body fatness measurements by near-infrared reactance and dual-energy X-ray absorptiometry in normal-weight and obese black and white women.

C. L. Jennings, L. K. Micklesfield, M. I. Lambert, E. V. Lambert, M. Collins & J. H. Goedcke

1065–1069

Effect of overweight on gastrointestinal microbiology and immunology: correlation with blood biomarkers.

K. Tiihonen, A. C. Ouwehand & N. Rautonen

1070–1078

Letter to the Editor

Not all lactic acid bacteria are probiotics, ...but some are.

V. Azai's-Braesco, J. L. Bresson, F. Guarner & G. Corthier

1079–1081
