Macroeconomic Dynamics

publishes theoretical, empirical and quantitative research of the highest standard. Papers of high quality are welcome from all areas of advanced macroeconomics and allied fields, so long as the research is founded in a rigorous scientific approach. Major advances in macroeconomics without immediate policy applications

also are accepted, if they show potential for application in the future. Occasional book reviews, announcements, conference proceedings, and interviews are also published. An electronic version of the journal is published simultaneously with the paper version, enabling immediate access to the best current research in macroeconomics.
