IMAGES, IDOLATRY, AND ICONOCLASM IN LATE MEDIEVAL ENGLAND

Textuality and the Visual Image

Edited by JEREMY DIMMICK, JAMES SIMPSON, and NICOLETTE ZEEMAN

This collection capitalizes on brilliant recent work on 16th-century iconoclasm to extend the study of images—both their making and their breaking—into an earlier period and wider discursive territories. It examines iconoclasm through the lenses of literature, art history, Biblical studies, and intellectual history.

SHAKESPEARE AND MODERN POPULAR CULTURE

DOUGLAS LANIER

Our notions of Shakespeare have been shaped partly by his diffuse presence in films, comics, television, popular novels, kitsch, and advertising. Through a series of case studies, Douglas Lanier examines how modern popular culture has appropriated and refashioned Shakespeare as a cultural icon.

POETRY AND POLITICS IN THE ENGLISH RENAISSANCE

Revised Edition

DAVID NORBROOK

Praise for the previous edition: "This bold, finely researched and well-written book should have a decisive effect on our thinking about the poetry of the English Renaissance."—Frank Kermode, *Times Literary Supplement*.

In this revised edition of his groundbreaking study, David Norbrook offers a clear account of the issues that engaged the passions of such leading figures as Sir Philip Sidney, Edmund Spenser, Ben Jonson, and John Milton, and provides introductions to a host of neglected writers.

THE OXFORD ENGLISH LITERARY HISTORY Volume 2: 1350-1547: Reform and Cultural Revolution

JAMES SIMPSON

Reversing accepted truisms, Simpson shows how the diversity characteristic of medieval literature—in terms of genre, audience, even language itself—was narrowed and simplified by the huge cultural changes of the early 16th century. The volume ranges from Chaucer, Wyclif, and the *Gawain*-poet, and a host of less canonical writers and texts, to Wyatt, Leland, and Surrey and their novel poetic forms and new conceptions of history.

SHAKESPEARE, RACE, AND COLONIALISM

ANIA LOOMBA

Examining the depiction of cultural, religious, and ethnic difference in Shakespeare's plays, Ania Loomba considers how seventeenth-century ideas differed from the later ideologies of "race" that emerged during colonialism, as well as from older ideas about barbarism, blackness, and religious difference.

SHAKESPEARE'S TRIBE

Church, Nation, and Theater in
Renaissance England
Jeffrey Knapp

"This is a radical book, one that will take students of Renaissance drama some time to assimilate fully. Why? Because a wide range of scholars, from the most diverse viewpoints, have accepted what we might call a secularization hypothesis, a notion of Renaissance drama as distinctly different in its means, its ends, and its worldview from any of the religious groups that struggled in the period for dominance or survival. Making its case at once with boldness and with extraordinary scholarly deftness and precision, *Shakespeare's Tribe* challenges this hypothesis. The book has an almost amazingly wide range of reference, and the evidence is marshaled with superb skill. This is a powerful new study."—Stephen Greenblatt

"Brilliantly places the study of Renaissance authorship on solid materialist footing. With Jonsonian acuity, learning, and wit, Loewenstein traces the culture—and business—of the book from the early modern period to the present. A major achievement."—Richard Halpern, author of *Shakespeare's Perfume*

"Offers a highly nuanced history of proprietary authorship and the printing industry in early modern England. This book will come to be recognized as a monument in its field."—Leah S. Marcus, author of *Puzzling Shakespeare*

Illegitimacy in Renaissance Florence

Thomas Kuehn

"A magisterial explanation of the complex legal status of illegitimates and occasional conflicts over their legitimation and inheritance. Kuehn also anchors that legal discourse in social experience, drawing on tax surveys and family memoirs to analyze the origins and very different fates of illegitimate boys and girls. This book is the major study of illegitimacy in a premodern urban community." —Carol Lansing, University of California, Santa Barbara

ARAB TRAVEL WRITING AND ENGLISH DRAMA

IN THE LANDS OF THE CHRISTIANS

Arab Travel Writing in the 17th Century
 Edited and translated by
 Nabil Matar

In the Lands of the Christians presents the first ever English translations of the accounts of four Arabic writers who visited Western Europe and the Americas in the seventeenth century. These texts refute presumptions that Arabs and Muslims of the Early Modern era had no interest in the extra-Islamic world and show that they were indeed very curious about the lands of the Christians.
