Business hours: 9 a.m. to 5 p.m. Saturdays to 1 p.m.

OXOID

Items from the range of

LABORATORY PREPARATIONS

OXOID Desoxycholate Citrate Agar. A modification of Leifson's medium for the isolation of intestinal pathogens.

OXOID Kligler Iron Agar. A differential medium for the study of intestinal organisms. Combining the principles of Russell's double sugar agar with an iron indicator it differentiates the lactose fermenters from the non-lactose fermenters and salmonella typhosa from other salmonella and shigella.

OXOID Wilson & Blair (modified) Bismuth Sulphite Agar Medium. For the isolation and differentiation of intestinal bacilli.

OXOID Selenite Broth. An enrichment medium for the isolation of typhoid and salmonellae from pathological specimens.
