In the above article (Haaksma *et al.*, 2017), in Table 1, the correct value for “Female sex (N (%))” should be “181 (55).”

Additionally, in the section “Results,” first paragraph, second sentence, it should read “The participants had a mean (SD) age of 74.9 (10.2) years at inclusion and were in majority female (181, 55%).”

The authors apologize for this error.
