

## CONTENTS OF VOLUME 43

KOKOU Y. ABALO and MICHAEL M. KOSTREVA: Existence theory for games of pricing and technology	575
THOMAS M. ACHO and DOMINIC P. CLEMENCE: The parameter dependent Sturm-Liouville eigenproblem with an interior simple or double pole	479
D. D. BAINOV and I. M. STAMOVA: Stability of the solutions of impulsive functional-differential equations by Lyapunov's direct method	269
D. D. BAINOV, A. B. DISHLIEV and I. M. STAMOVA: Practical stability of the solutions of impulsive systems of differential-difference equations via the method of comparison and some applications to population dynamics	525
E. BALAKRISHNAN: See M. I. NELSON	
E. BALAKRISHNAN: See R. O. WEBER	
R. BALL: See A. C. MCINTOSH	
SHAUN R. BELWARD and LAWRENCE K. FORBES: A simple model for oilspill containment	237
J. BRINDLEY, J. F. GRIFFITHS, A. C. MCINTOSH and J. ZHANG: Initiation of combustion waves in solids, and the effects of geometry	149
QIANSHUN CHANG: See LIMING MA	
X. D. CHEN: See M. I. NELSON	
XIAO DONG CHEN: Self-heating behaviour of low moisture content particles—modelling the basket-heating of solid particles and some aspects of the cross over behaviour using milk powder as an example	165
DOMINIC P. CLEMENCE: See THOMAS M. ACHO	
S. CROZIER: See C. J. SNAPE-JENKINSON	
K. P. DAS: See SUMA DEBSARMA	
SUMA DEBSARMA and K. P. DAS: Fourth order nonlinear evolution equations for gravity-capillary waves in the presence of a thin thermocline in deep water	513
JAMES P. DENIER: See JILLIAN A. K. STOTT	
W. DERRICK: See R. O. WEBER	
WILLIAM DERRICK: See LAWRENCE K. FORBES	
A. B. DISHLIEV: See D. D. BAINOV	
J. DROZD: See S. SAUJANI	
LAWRENCE K. FORBES and WILLIAM DERRICK: A combustion wave of permanent form in a compressible gas	35
LAWRENCE K. FORBES: See SHAUN R. BELWARD	
L. K. FORBES: See C. J. SNAPE-JENKINSON	
J. GRAHAM-EAGLE and D. A. SCHULT: Combustion waves with reactant depletion	119
B. F. GRAY: On the critical conditions for an assembly of interacting thermons	1
B. F. GRAY: See C. MACASKILL	
B. F. GRAY: See A. C. MCINTOSH	

B. F. GRAY: See R. O. WEBER	
J. F. GRIFFITHS: See J. BRINDLEY	
BAO ZHU GUO: Further results for a one-dimensional linear thermoelastic equation with Dirichlet-Dirichlet boundary conditions	449
XIANPING GUO and WEIPING ZHU: Denumerable state continuous time Markov decision processes with unbounded cost and transition rates under average criterion	541
ISHAK HASHIM: On competition between modes at the onset of Bénard-Marangoni convection in a layer of fluid	387
V. IVANCEVIC and C. E. M. PEARCE: Topological duality in humanoid robot dynamics	183
L. S. JENNINGS: See K. L. TEO	
Y. KANG and J.-M. VANDEN-BROECK: Stern waves with vorticity	321
A. A. KILBAS: See R. K. RAINA	
SANGJEONG KIM: Gevrey class regularity of the magnetohydrodynamics equations	397
MICHAEL M. KOSTREVA: See KOKOU Y. ABALO	
YANG KUANG: Global stability and persistence in diffusive food chains	247
W. R. LEE: See K. L. TEO	
B. LIU: See T. R. MARCHANT	
XINZHI LIU, S. SIVALOGANATHAN and SHENGHAI ZHANG: Analysis of cell population PDE models with general maturation rates	359
Y. LIU: See K. L. TEO	
LIMING MA and QIANSHUN CHANG: Multigrid methods for the biharmonic equation using some nonconforming plate elements	279
C. MACASKILL, M. J. SEXTON and B. F. GRAY: A reaction-diffusion model of stored bagasse	13
A. C. MCINTOSH, B. F. GRAY, G. C. WAKE and R. BALL: The stability of a near-adiabatic Endex batch CSTR reactor	59
A. C. MCINTOSH: See J. BRINDLEY	
R. MALLIER: See S. SAUJANI	
T. R. MARCHANT and B. LIU: On the heating of a two-dimensional slab in a microwave cavity: aperture effects	137
M. MATIĆ, C. E. M. PEARCE and J. PEČARIĆ: Some refinements of Shannon's inequalities	493
G. N. MERCER: See M. I. NELSON	
G. N. MERCER: See R. O. WEBER	
M. I. NELSON, H. S. SIDHU, R. O. WEBER and G. N. MERCER: A dynamical systems model of the limiting oxygen index test	105
M. I. NELSON, G. C. WAKE, X. D. CHEN and E. BALAKRISHNAN: The multiplicity of steady-state solutions arising from microwave heating. I. Infinite Biot number and small penetration depth	87
C. E. M. PEARCE: See V. IVANCEVIC	
C. E. M. PEARCE: See M. MATIĆ	
J. PEČARIĆ: See M. MATIĆ	
R. K. RAINA, H. M. SRIVASTAVA, A. A. KILBAS and M. SAIGO: Solvability of some Abel-type integral equations involving the Gauss hypergeometric function as kernels in the spaces of summable functions	291

M. SAIGO: See R. K. RAINA	
S. SAUJANI, J. DROZD and R. MALLIER: Nonlinear evolution of singular disturbances to a $\tanh^3 y$ mixing layer	409
D. A. SCHULT: See J. GRAHAM-EAGLE	
M. J. SEXTON: See C. MACASKILL	
H. S. SIDHU: See M. I. NELSON	
H. S. SIDHU: See R. O. WEBER	
S. SIVALOGANATHAN: See XINZHI LIU	
WILLIAM V. SMITH: Wave motion in a conducting fluid with a layer adjacent to the boundary, II. Eigenfunction expansions	195
C. J. SNAPE-JENKINSON, S. CROZIER and L. K. FORBES: NMR shim coil design utilising a rapid spherical harmonic calculation method	375
MIODRAG M. SPALEVIĆ: Calculation of Chakalov-Popoviciu quadratures of Radau and Lobatto type	429
H. M. SRIVASTAVA and YEONG-NAN YEH: Certain theorems on bilinear and bilateral generating functions	567
H. M. SRIVASTAVA: See R. K. RAINA	
I. M. STAMOVA: See D. D. BAINOV	
STEVO STEVIĆ: Growth theorems for homogeneous second-order difference equations	559
JILLIAN A. K. STOTT and JAMES P. DENIER: The stability of boundary layers on curved heated plates	333
K. L. TEO, W. R. LEE, L. S. JENNINGS, S. WANG and Y. LIU: Numerical solution of an optimal control problem with variable time points in the objective function	463
J.-M. VANDEN-BROECK: See Y. KANG	
G. C. WAKE: See A. C. MCINTOSH	
G. C. WAKE: See M. I. NELSON	
G. C. WAKE: See R. O. WEBER	
S. WANG: See K. L. TEO	
R. O. WEBER, G. C. WAKE, H. S. SIDHU, G. N. MERCER, B. F. GRAY, W. DERRICK and E. BALAKRISHNAN: On the crossing of intermediate unstable steady state solutions for thermal ignition in a sphere	77
R. O. WEBER: See M. I. NELSON	
YEONG-NAN YEH: See H. M. SRIVASTAVA	
J. ZHANG: See J. BRINDLEY	
SHENGHAI ZHANG: See XINZHI LIU	
WEIPING ZHU: See XIANPING GUO
