

ANNOUNCEMENT

Travel Grant Program to the XIV INQUA Congress

Berlin, Germany, August 3–10, 1995

The American Geophysical Union, jointly with the U.S. National Committee for the International Union of Quaternary Research (USNC/INQUA), is expecting to obtain funding for its travel grant program to the XIV INQUA Congress in Berlin, Germany, August 3–10, 1995. Pre- and postcongress field excursions are planned. The U.S. National Committee, under the sponsorship of AGU, and with the cooperation of the American Quaternary Association (AMQUA), seeks to ensure appropriate U.S. representation by providing travel grants to enable Quaternary scientists residing in the United States (regardless of citizenship) to participate in the activities of the congress. Travel grants, which will cover only a portion of a participant's expenses (mainly airfare), are to be awarded competitively, in part on the evaluation of papers submitted for presentation at the congress. The Awards Subcommittee also plans special consideration for those judged to benefit most by participation at this important international event.

Deadline. The completed application, including the abstract of your paper and a one-page curriculum vitae, must be received or postmarked by January 31, 1995.

Stipulated requirements. Grantees will be required to use U.S. flag carrier to the extent possible and to file a meaningful trip report (emphasizing the benefits of attendance) within 60 days of the end of the congress.

Grant announcements. The committee aims to announce the travel awards by early spring of 1995. However, some awards may be made later because of cancellations or delays in availability of funding.

Travel grant applications and detailed instructions are available from:
