

CAMBRIDGE

JOURNALS

Knowledge is no longer shelved

The *Cambridge Journals Digital Archive* contains more than 160 journals, more than 3 million pages and more than 8 million linked references. Knowledge is now more visible and more searchable than ever.

CAMBRIDGE
UNIVERSITY PRESS

CONTENTS

<i>Scollan, N.</i> Editorial: Eighth International Symposium on the Nutrition of Herbivores (ISNH8) in Aberystwyth, Wales, in 2011	1
<i>Herrero, M., Grace, D., Njuki, J., Johnson, N., Enahoro, D., Silvestri, S. and Rufino, M. C.</i> The roles of livestock in developing countries	3
<i>van Vuuren, A. M. and Chilbroste, P.</i> Challenges in the nutrition and management of herbivores in the temperate zone	19
<i>Schils, R. L. M., Eriksen, J., Ledgard, S. F., Vellinga, Th. V., Kuikman, P. J., Luo, J., Petersen, S. O. and Velthof, G. L.</i> Strategies to mitigate nitrous oxide emissions from herbivore production systems	29
<i>Clark, H.</i> Nutritional and host effects on methanogenesis in the grazing ruminant	41
<i>St-Pierre, B. and Wright, A.-D. G.</i> Diversity of gut methanogens in herbivorous animals	49
<i>Peyraud, J. L. and Delagarde, R.</i> Managing variations in dairy cow nutrient supply under grazing	57
<i>O'Reagain, P. J. and Scanlan, J. C.</i> Sustainable management for rangelands in a variable climate: evidence and insights from northern Australia	68
<i>Kingston-Smith, A. H., Marshall, A. H. and Moorby, J. M.</i> Breeding for genetic improvement of forage plants in relation to increasing animal production with reduced environmental footprint	79
<i>Friggens, N. C., Brun-Lafleur, L., Faverdin, P., Sauvant, D. and Martin, O.</i> Advances in predicting nutrient partitioning in the dairy cow: recognizing the central role of genotype and its expression through time	89
<i>De Blas, J. C.</i> Nutritional impact on health and performance in intensively reared rabbits	102
<i>Ingvartsen, K. L. and Moyes, K.</i> Nutrition, immune function and health of dairy cattle	112
<i>Swain, D. L. and Friend, M. A.</i> Opportunities for telemetry techniques in studies on the nutritional ecology of free-ranging domesticated ruminants	123
<i>Shingfield, K. J., Bonnet, M. and Scollan, N. D.</i> Recent developments in altering the fatty acid composition of ruminant-derived foods	132
<i>Salter, A. M.</i> Dietary fatty acids and cardiovascular disease	163
<i>Seo, S., Larkin, D. M. and Looor, J. J.</i> Cattle genomics and its implications for future nutritional strategies for dairy cattle	172
<i>Morgavi, D. P., Kelly, W. J., Janssen, P. H. and Attwood, G. T.</i> Rumen microbial (meta)genomics and its application to ruminant production	184
