

COMPOSITIO MATHEMATICA

Ownership and Publication of *Compositio Mathematica*. The journal was founded in 1934 and has been owned since 1950 by the Foundation Compositio Mathematica. The Board members of this Dutch foundation are all mathematicians; its President is Prof. J. H. M. Steenbrink of Nijmegen University. Papers are submitted to the journal's Dutch editorial office, currently based in the Korteweg–de Vries Institute at the University of Amsterdam. Since January 2004, the journal has been published on behalf of the Foundation by the London Mathematical Society (LMS). The LMS is the major British learned Society for mathematics and publishes eleven other journals, five of which are in collaboration with other learned societies. Cambridge University Press prints and distributes *Compositio Mathematica* under agreement with the London Mathematical Society.

For further information concerning the journal's ownership, management and pricing policy, please contact the *Publisher*, Dr Susan Hezlet, at the London Mathematical Society (susan.hezlet@lms.ac.uk).

Submission of Manuscripts. *Compositio Mathematica* prefers the submission of papers in LaTeX; however, papers submitted in TeX, AMSTeX, LAMSTeX and for conventional typesetting can also be accepted.

Guidelines for electronic submission are available from the Compositio Mathematica website at <http://www.compositio.nl>. Hard-copy submissions should be sent by post, in duplicate, to B. J. J. Moonen, *Managing Editor*, Compositio Mathematica, Korteweg–de Vries Institute, University of Amsterdam, P. O. Box 94248, NL-1090 GE Amsterdam, The Netherlands, and should be accompanied by a covering letter stating the title of the paper, the names of all authors and the full address details of the corresponding author (including an email address).

The eventual supply of an accepted-for-publication paper in its final form as a LaTeX file will ensure more rapid publication.

Instructions for the Preparation of Manuscripts can be found on the *Compositio Mathematica* website at <http://www.compositio.nl> and can be requested directly from the *Managing Editor* at the address given above.

Rights and Permissions. Authors are asked to assign an exclusive licence to the Foundation Compositio Mathematica for the publication of their work. Enquiries regarding rights and permission to reproduce works should be addressed to the *Publisher*, London Mathematical Society, De Morgan House, 57–58 Russell Square, London WC1B 4HS, UK.

Offprints. A URL giving free access to the final published article will be provided free of charge. Offprints can be ordered on the form made available with the page proofs.

Back numbers. Orders for Volume 140 onwards should be sent to Cambridge University Press. Enquiries about previous volumes should be directed to the *Publisher*, London Mathematical Society.

Typeset by Sunrise Setting Ltd, Torquay, UK.

Printed in the United Kingdom at the Cambridge University Press, Cambridge.

COMPOSITIO MATHEMATICA

VOLUME 148 NUMBER 1 JANUARY 2012

P. Habegger and J. Pila Some unlikely intersections beyond André–Oort	1–27
Ruochuan Liu Locally analytic vectors of some crystabelian representations of $GL_2(\mathbb{Q}_p)$	28–64
Uwe Weselmann A twisted topological trace formula for Hecke operators and liftings from symplectic to general linear groups	65–120
M. Lehn , Y. Namikawa and Ch. Sorger Slodowy slices and universal Poisson deformations	121–144
Hailong Dao Picard groups of punctured spectra of dimension three local hypersurfaces are torsion-free	145–152
Thomas Delzant and Pierre Py Kähler groups, real hyperbolic spaces and the Cremona group. With an appendix by Serge Cantat	153–184
Sabin Cautis Equivalences and stratified flops	185–208
Philipp Gross The resolution property of algebraic surfaces	209–226
Richard Crew Arithmetic \mathcal{D} -modules on the unit disk. With an appendix by Shigeki Matsuda	227–268
Eric Katz and Alan Stapledon Tropical geometry and the motivic nearby fiber	269–294
Junecue Suh Symmetry and parity in Frobenius action on cohomology	295–303
Miguel Abreu and Leonardo Macarini Contact homology of good toric contact manifolds	304–334
