## Better Mental Health for Older People

IPA NEEDS YOU!

### About IPA

The International Psychogeriatric Association (IPA), founded in 1982 and representing members in more than 50 countries, is a unique and diverse professional healthcare community promoting better geriatric mental health – across disciplines, across borders, and across geriatric issues. Psychiatrists, scientists, neurologists, geriatricians, primary care physicians, epidemiologists, nurses, psychologists, occupational therapists, social workers, and many other healthcare professionals come to the IPA community from all around the world to discuss, learn, share and research information about behavioral and biological aspects of geriatric mental health. IPA promotes research and education, facilitates an international exchange of ideas, and fosters cross-cultural understanding of the latest developments in the field.

### IPA Membership

The International Psychogeriatric Association (IPA) encourages professionals from all backgrounds related to geriatric mental health to join our healthcare community. Here are some of the many benefits of joining IPA:

- Unique opportunities to interact with colleagues around the world who share an interest in advancing research, education, and theory about mental health care in older adults.
- Valuable discounts on participation in education and scientific meetings which reflect the full spectrum of disciplines related to psychogeriatrics. Reduced registration rates for the annual IPA International Congress and IPA Regional Meetings are included.
- Relevant publication on updates in the field, including *International Psychogeriatrics*, IPA's peer reviewed journal which publishes twelve issues per year and additional special-focus supplements.
- Access to online educational materials and *The IPA Complete Guides to Behavioral and Psychological Symptoms of Dementia (BPSD)*.
- Subscription to the *IPA Bulletin*, IPA's newsletter which features articles on advances in the field and information on upcoming programs around the world.
- Participation in the IPA Member Forums – smaller member groups which enable members to connect with one another and collaborate on research and clinical care practices. These forums reflect the diversity of interests within geriatric mental health.

### How to Join

To learn more about IPA and become a member, please visit our website: [www.ipa-online.org](http://www.ipa-online.org). IPA offers a one-year membership for \$160 USD. One-year student or retired memberships are available for \$99 USD. A limited number of Lifetime Memberships are also available for \$1000 USD. The IPA Secretariat is available to answer any questions you may have about IPA or membership. Please contact us at +1 414 918 9889 or by email at [info@ipa-online.org](mailto:info@ipa-online.org).

## Scope and contributions

*International Psychogeriatrics* is written by and for those doing clinical, teaching, and research work with older people. It is the official journal of the International Psychogeriatric Association (IPA) and is published by Cambridge University Press, Cambridge, UK. Although it is primarily concerned with psychogeriatrics, the journal welcomes contributions from all concerned with the field of mental health and aging. Original research papers are particularly sought.

Contributions include original research articles, reviews of the literature, book reviews, letters to the editor, and editorials. Apart from editorials and book reviews, which are commissioned, contributions to *International Psychogeriatrics* are spontaneously written and submitted by authors. Papers are usually reviewed by two expert reviewers selected by the Editor-in-Chief. At present, about one-third of the papers submitted are accepted for publication. The journal's Science Citation Index impact factor is 2.423 (2016). Submission of a paper implies that it is neither under consideration for publication elsewhere, nor previously published in English. Manuscripts must be formatted double-spaced with ample margins on all sides and the pages should be numbered. *International Psychogeriatrics* uses the spelling of American English. Manuscripts written by those whose primary language is not English should be edited carefully for language prior to submission. The journal has a Language Assistance Panel consisting of both native English speakers willing to check manuscripts for style prior to submission, and bilingual experts willing to assist with the translation of manuscripts into English. Further details including contact information for individual panel members can be found at both the journal and IPA websites ([journals.cambridge.org/ipg](http://journals.cambridge.org/ipg) and [www.ipa-online.org](http://www.ipa-online.org)).

An up to date version of the journal's instructions for contributors can be found at the *International Psychogeriatrics* website [journals.cambridge.org/ipg](http://journals.cambridge.org/ipg). Please read these instructions carefully before submitting articles. **Articles that are not prepared in accordance with these guidelines will be returned to authors.**

**Manuscripts should be submitted online via our manuscript submission and tracking site, <<http://mc.manuscriptcentral.com/ipg>>. Full instructions for electronic submission are available directly from this site.**

## Important Addresses

Office of the Editor-in-Chief

## Issue Theme: Benzodiazepines and Hypnotics

### CONTENTS

- Guest Editorial** 925 **Using sedatives–hypnotics or opioids in older adults: a narrow path**  
Simon J. C. Davies and Benoit H. Mulsant
- Theme Articles** 929 **Training needs for dementia care in China from the perspectives of mental health providers: who, what, and how**  
Ling Xu, Hsin-Yi Hsiao, Wenchen Deng and Iris Chi
- 941 **Association between the use of benzodiazepines and opioids with the risk of falls and hip fractures in older adults**  
Manuel E. Machado-Duque, Juan Pablo Castaño-Montoya, Diego A. Medina-Morales, Alejandro Castro-Rodríguez, Alexandra González-Montoya and Jorge E. Machado-Alba
- 947 **Impact of opioid initiation on antipsychotic and benzodiazepine and related drug use among persons with Alzheimer's disease**  
Aleksi Hamina, Piia Lavikainen, Antti Tanskanen, Anna-Maija Tolppanen, Jari Tiihonen, Sirpa Hartikainen and Heidi Taipale
- 957 **Sedative–hypnotic drug use among community-dwelling elderly in Taiwan**  
Han-Yun Tseng, Shu-Han Yu, Chun-Yi Lee, Wen-Hao Huang, Seng-Loong Huang, Chi-Shin Wu, Yen-Feng Chiu and Chao A. Hsiung
- Review** 967 **The assessment of anxiety in aged care residents: a systematic review of the psychometric properties of commonly used measures**  
Alexandria S. Creighton, Tanya E. Davison and David W. Kissane
- Original Research Articles** 981 **Gamma-Glutamyltransferase (GGT) as a biomarker of cognitive decline at the end of life: contrasting age and time to death trajectories**  
Marcus Praetorius Björk and Boo Johansson
- 991 **Physical restraint to patients with dementia in acute physical care settings: effect of the financial incentive to acute care hospitals**  
Miharu Nakanishi, Yasuyuki Okumura and Asao Ogawa
- 1001 **Polimedication: applicability of a computer tool to reduce polypharmacy in nursing homes**  
Tomás M. García-Caballero, Juan Lojo, Carlos Menéndez, Roberto Fernández-Álvarez, Raimundo Mateos and Alejandro García-Caballero
- 1009 **Telling life stories: a dyadic intervention for older Korean couples affected by mild Alzheimer's disease**  
Minyoung Kwak, Ji Won Han and Jung-Hwa Ha
- 1019 **A cross-sectional examination of the prevalence of psychotropic medications for people living with dementia in Australian long-term care facilities: issues of concern**  
Mitchell McMaster, Elaine Fielding, David Lim, Wendy Moyle, Elizabeth Beattie and The AusQoL Group
- 1027 **Predisposing, enabling, and need factors of service utilization in the elderly with mental health problems**  
Jana Volkert, Sylke Andreas, Martin Härtter, Maria Christina Dehoust, Susanne Sehner, Anna Sulding, Berta Ausín, Alessandra Canuto, Mike J. Crawford, Chiara Da Ronch, Luigi Grassi, Yael Hershkovitz, Manuel Muñoz, Alan Quirk, Ora Rotenstein, Ana Belén Santos-Olmo, Arieh Y. Shalev, Jens Strehle, Kerstin Weber, Karl Wegscheider, Hans-Ulrich Wittchen and Holger Schulz
- 1039 **Prevalence and correlates of subjective memory complaints in Vietnamese adults**  
Oanh L. Meyer, Amanda Leggett, Siwei Liu and Ngoc H. Nguyen
- 1049 **Impact of informal caregiving on cognitive function and well-being in Canada**  
Sasha Mallya and Alexandra J. Fiocco
- 1057 **Innovating dementia care; implementing characteristics of green care farms in other long-term care settings**  
Yvette Buist, Hilde Verbeek, Bram de Boer and Simone R. de Bruin
- Brief Reports** 1069 **Presence of neuroticism and antidepressant remission rates in late-life depression: results from the Neurobiology of Late-Life Depression (NBOLD) study**  
David C. Steffens, Rong Wu, James J. Grady and Kevin J. Manning
- 1075 **A pilot study exploring staff acceptability of a socially assistive robot in a residential care facility that accommodates people under 65 years old**  
Samantha M. Loi, Alice Bennett, Marta Pearce, Khanh Nguyen, Nicola T. Lautenschlager, Rajiv Khosla and Dennis Velakoulis
- Case Report** 1081 **Resolution of severe psychogenic dysphagia with ECT in an elderly patient**  
Tom S. Y. Kim, Tariq Munshi and Maria Hussain

**Cambridge Core**
