

Powder X-ray diffraction of capecitabine,  $C_{15}H_{22}FN_3O_6$  — CORRIGENDUM

James A. Kaduk, Amy M. Gindhart, and Thomas N. Blanton

doi: <https://doi.org/10.1017/S0885715619000575>, Published by Cambridge University Press, 11 July 2019

The original article has been corrected online to rectify this error.

In Kaduk *et al.* (2019), Figure 1 showed the incorrect chirality of the molecules.

Kaduk, J. A., Gindhart, A. M., and Blanton, T. N. (2019). "Powder X-ray diffraction of capecitabine,  $C_{15}H_{22}FN_3O_6$ ," Powder Diffr. doi:10.1017/S0885715619000575.

The correct Figure 1 is shown below:

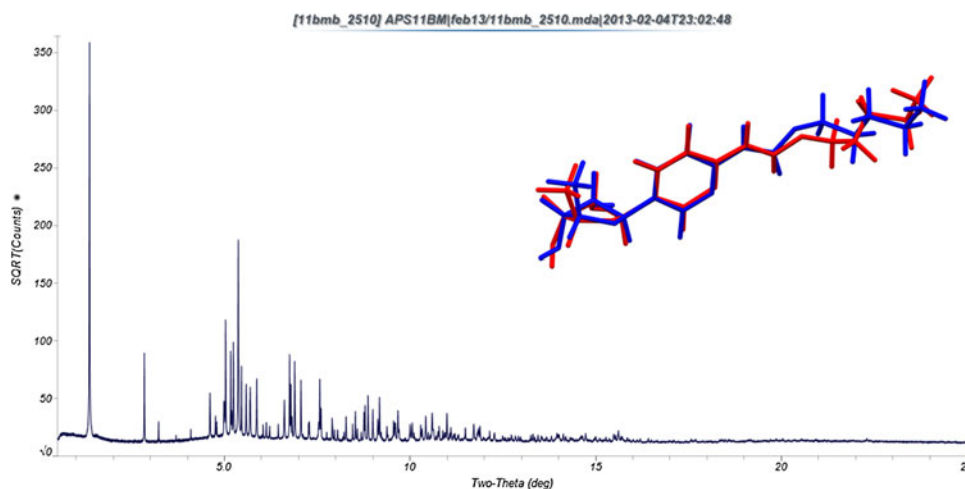

Figure 1. (Color online) Powder X-ray diffraction pattern of capecitabine. The Rietveld-refined structure is indicated in red, and the DFT-optimized structure is indicated in blue.
