## Philosophical Studies

An International Journal for Philosophy in the Analytic Tradition

**Editor:** KEITH LEHRER

*Philosophical Studies*, a journal devoted to work in analytic philosophy, publishes articles in all general areas of philosophical investigation, philosophy of science, epistemology, metaphysics, ethics, and so forth, including the history of philosophy. The main criterion of articles published is that they contain rigorous argumentation and precise analysis of key concepts. Articles in the journal are intelligible to philosophers whose expertise lies outside the subject matter of the article. It is intended that a diligent reader of the journal will be kept informed of the major problems and contributions of contemporary analytic philosophy.

... is designed to fill the need for a periodical in which philosophers with different viewpoints and philosophically inclined writers from various disciplines—including law, political science, economics, and sociology—can bring their distinctive methods to bear on problems of public concern.

# THE INDEPENDENT JOURNAL OF PHILOSOPHY UNABHÄNGIGE ZEITSCHRIFT FÜR PHILOSOPHIE

**Editorial Statement:** *The Independent Journal of Philosophy* provides an international forum for the exploration of responsible, articulate alternatives to the positivist, Marxist, and narrowly academicist trends that characterize much of present-day philosophy. Although not aligned with any particular school or movement, it takes its general philosophical bearings by the Platonic-Aristotelean conceptions of 'reason,' 'wisdom,' and 'intuitable form,' and the classical-humanistic moral and political tradition. While not insensitive to the nihilistic implications of the historicism, relativism, and irrationalism stemming from aspects of modern philosophy, it is interested in dialogue with especially the idealist, phenomenological, and existentialist traditions. It welcomes broadly relevant, problem-oriented contributions (including essays, replies, book reviews, translations, dialogues, aphorisms, and philosophical analyses of works of literature and art) in all major areas of philosophy, and particularly in areas announced as special themes for future issues. While most of its material is written in English, it also publishes work in French and German.
