JOURNAL OF REPRODUCTION AND FERTILITY

The Journal publishes original papers, abstracts of Proceedings, and occasionally reviews and bibliographies, dealing with the morphology, physiology, biochemistry and pathology of reproduction in man and animals, and with the biological, medical and veterinary problems of fertility and lactation. Issues are published monthly to give four volumes a year.

Papers appearing early in 1971 include:

- W. R. GIBSON and T. J. ROBINSON. The seasonal nature of reproductive phenomena in the sheep. I. Variation in sensitivity to oestrogen.
