

Notes for Contributors

All manuscripts should be submitted via our on-line system, ScholarOne Manuscripts at:
<http://mc.manuscriptcentral.com/psrm>

Other forms of submission will not be accepted by the editors.

The journal publishes two types of articles:

- a) full length manuscripts that present original, well researched, and fully developed empirical or theoretical work
- b) research notes

Normal length articles that should not exceed 9,000 words in length, including tables, figures, footnotes, references and printed appendices, but excluding any supporting material that can be relegated to an online appendix.

Research notes that should not exceed 4,000 words in length, including tables, figures, footnotes, references and printed appendices, but excluding any supporting material that can be relegated to an online appendix.

Research notes should contain original work and present a new method or methodology (particularly useful if related software components are included) to solve an important problem in applied data analysis, present a new theoretical idea or argument, or comment on other articles published in the journal. *PSRM* welcomes comments to as well as replications of published articles. These will undergo the usual peer review process and if accepted will be published in the research notes section of the journal.

PSRM uses a single-blind peer review process, thus anonymizing your manuscript is not necessary. If you feel strongly about a fully anonymous review process, you may opt out and your manuscript will undergo a double blind review process.

Replication Policy: *PSRM* has a strict replication policy which adheres to the Data Access and Research transparency (DA-RT) statement subscribed to by many Political Science Journal Editors in 2015. Authors are required to make replication material publicly available at time of publication of the article. The replication materials must be sufficient to replicate results in all tables and figures printed in the article, including simulation material for both theoretical (e.g. agent based models) and empirical (e.g. Monte Carlo experiments) work. Data and replication code for your article, as well as a log demonstrating smooth running of all the replication files, must be uploaded in a single .zip file to the *PSRM* Dataverse at <https://dataverse.harvard.edu/dataverse/PSRM>. (See the *PSRM* Dataverse Guide for a step-by-step walkthrough for uploading your material, which is also linked to on the *PSRM* Dataverse homepage). This is a necessary condition for publication of the manuscript. All manuscripts are accepted contingent on their replicability, which will initially be assessed by *PSRM* staff. Manuscripts that are not replicable will be rejected for publication. If your analysis relies on simulation techniques (MCMC, MC experiments) we require authors to set and communicate a seed, so that exact results can be replicated. If this is impossible due to the design of the analysis, replication results need not deviate by more than 5 per cent from published results in the manuscript.

Authors are responsible for obtaining permission to reproduce any material they do not own the copyright for and for ensuring appropriate acknowledgment of such material.

All manuscripts should follow the manuscript preparation guidelines available online in the full instructions for contributors.

Full Instructions for Contributors can be found online at <http://www.journals.cambridge.org/psrm/ifc>

Rights and Permissions info

All rights reserved. No part of this publication may be reproduced, stored or transmitted in any form or by any means without the prior permission in writing from the copyright holder. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organizations in the USA who are also registered with the C.C.C. may, therefore copy material (beyond the limits permitted by, sections 107 and 108 of U.S. Copyright law) subject to payment to the C.C.C. of the appropriate fee per copy. This consent does not extend to multiple copying for promotional or commercial purposes.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Subscriptions

Political Science Research and Methods is published four times a year in January, April, July, and October. The 2018 subscription price (excluding VAT) of a volume, which includes print and electronic access, is £451.00 (US \$642.00 in USA, Canada and Mexico); £37.00 (US \$57.00) for individuals, which includes print and electronic access, ordering direct from the publishers and certifying that the journal is for their personal use. The electronic-only price available to institutional subscribers is £386.00 (US \$618.00 in USA, Canada and Mexico). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. Prices include delivery by air when appropriate. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan. Orders, which must be accompanied by payment, may be sent to a bookseller, subscription agent or direct to the publisher: Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK; or in the USA, Canada and Mexico: Cambridge University Press, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Periodicals postage paid at New York, NY and additional mailing offices.

Contents

EDITORIAL NOTES

- 635 Leaving Editor-in-Chief's Farewell Note
Vera E. Troeger
- 637 Notes from the New Editor-in-Chief
Paul M. Kellsted

ORIGINAL ARTICLES

- 639 Minority Languages in Dictatorships: A New Measure of Group Recognition
Amy H. Liu, Jennifer Gandhi and Curtis Bell
- 661 The Politics of Scrutiny in Human Rights Monitoring: Evidence from Structural Topic Models of US State Department Human Rights Reports
Benjamin E. Bagozzi and Daniel Berliner
- 679 Women's Issues and Their Fates in the US Congress
Craig Volden, Alan E. Wiseman and Dana E. Wittmer
- 697 Retrospective Voting in Big-City US Mayoral Elections
Daniel J. Hopkins and Lindsay M. Pettingill
- 715 Popular Referendum and Electoral Accountability
Patrick Le Bihan
- 733 Aggregate Effects of Large-Scale Campaigns on Voter Turnout
Ryan D. Enos and Anthony Fowler
- 753 Information and Economic Voting
Jonathan Rogers and Marcelo Tyszler
- 771 Self-Selection and Misreporting in Legislative Surveys
Pirmin Bundi, Frédéric Varone, Roy Gava and Thomas Widmer
- 791 How Campaigns Enhance European Issues Voting During European Parliament Elections
Derek Beach, Kasper M. Hansen and Martin V. Larsen
- 809 Reform and Representation: A New Method Applied to Recent Electoral Changes
Thad Kousser, Justin Phillips and Boris Shor

RESEARCH NOTE

- 829 Improving the Interpretation of Fixed Effects Regression Results
Jonathan Mummolo and Erik Peterson

REPLICATION

- 837 A Research Note: The Differential Impact of Threats on Ethnic Prejudice Toward Three Minority Groups in Britain
Eline A. De Rooij, Matthew J. Goodwin and Mark Pickup

ADDENDUM

- 847 Who Gets the Credit? Legislative Responsiveness and Evaluations of Members, Parties, and the US Congress – ADDENDUM
Daniel M. Butler, Christopher F. Karpowitz and Jeremy C. Pope
