Beyond technology

there's possibility

Over 40 years ago Professor Lars Leksell invented Gamma Knife® surgery, a revolutionary, non-invasive way to perform brain surgery that created new treatment possibilities for patients with inoperable brain cancer. Today, Leksell Gamma Knife® Perfexion™ is the cornerstone of a complete line of stereotactic treatment and radiosurgery solutions that is still creating new possibilities for the most challenging cases of the brain, head & neck, and body. Find out more at [elekta.com/proof](http://elekta.com/proof).

## EARLY COMMITTED SPONSORS FOR 2010

The Canadian Neurological Sciences Federation is pleased to recognize those Sponsors who have already committed to supporting the 2010 Congress. These organizations partner with CNSF to determine the causes of, and develop treatment for diseases and injuries of the nervous system, and in the care of patients with these diseases and injuries. Along with support of the Canadian Journal of Neurological Sciences and other initiatives the CNSF maintains throughout the year, these organizations graciously provided educational grants to the Annual Congress, this year in Quebec City, Quebec, June 8-11, 2010.

## CONGRESS SPONSORSHIP AND EXHIBITOR OPPORTUNITIES

The Canadian Neurological Sciences Federation's Congress is the largest educational forum and industry show in the country for neurologists, neurosurgeons, child neurologists, neuroradiologists and neurophysiologists. Representing the largest and most diverse neuro-specialist groups in Canada, the Quebec City Congress in June 2010 will again feature exceptionally strong science and hold undeniable corporate value for our industry partners.

If you and your organization would like more information, or would like to discuss how you can partner with CNSF and meaningfully connect with our Congress delegates, please call or email Brett Windle, Corporate Development Coordinator at (403) 229-9544 or [brett-windle@cnsfederation.org](mailto:brett-windle@cnsfederation.org)

Join Canada's pharmaceutical and equipment manufacturing leaders in the neurosciences by showing your support for continuing education and lifelong learning.

# NEUROLOGICAL SCIENCES FOUNDATION OF CANADA INC.

The NSFC's granting guidelines are to provide funding to organizations and/or programs in the following areas:

- Education and Professional Development
- Public Awareness and Advocacy
- "Best Practice" Models of Care Provision
- Educational Programs and Projects of Allied Health Care Professionals, and Distributions from the CNS Don Paty Fund.

Past NSFC grants have supported: the CNSF Congress, the Canadian Association of Neuroscience Nurses, the Canadian Neuromodulation Society, the Canadian Movement Disorders Group (National Residents' Seminar on Movement Disorders) and the Canada Cuba Project which supplied over \$33,000 in text books to Universities in Cuba. In 2008 and 2009 grants totaling \$178,500 were distributed to organizations which met these criteria.

The Neurological Sciences Foundation of Canada continues to raise money on behalf of its four member Societies and is asking for your support.

Your financial support is essential in order for the NSFC to continue to fund these worthwhile activities.

Please help us and make your tax deductible donation by filling in the form below and mailing it to The Canadian Neurological Sciences Federation  
7015 Macleod Trail SW, Suite 709 Calgary, AB T2H 2K6. Alternatively, you may wish to call 1-403-229-9544 or fax 1-403-229-1661 to process your gift.
