

# ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

**OLIVER & BOYD LTD.**  
EDINBURGH AND LONDON

**JUNE 1963**

**VOL. 5 PART 2**

## INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

*Animal Production* publishes papers on original research provided that they have not been, and will not be, published elsewhere in whole, or in part, without the Editors' written permission. Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will also be considered but only as appendices to scientific papers.

*Manuscripts* should be typewritten in double spacing with wide margins and, preferably, the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,  
A.R.C. Animal Breeding Research Organisation,  
6 South Oswald Road, Edinburgh 9.

Manuscripts are not returned with the proofs; authors should therefore retain copies.

*Length of papers* should not normally exceed the equivalent of 6,000 words, inclusive of tables, text figures and references.

*Illustrations* (figures and plates) should be simple and few, otherwise a charge may have to be made to authors. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil. Costs of touching-up diagrams found to be incomplete or unsuitable for line-block reproduction will be charged to authors.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors. Part of their cost may have to be borne by authors.
- (c) Colour plates will not be accepted unless authors bear the cost.

*Tables* should be as simple and as few as possible; if they are very large or numerous a charge may have to be made to authors. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

## INDIAN JOURNAL OF VETERINARY SCIENCE AND ANIMAL HUSBANDRY

*Indian Journal of Veterinary Science and Animal Husbandry*, a quarterly journal was established about thirty-one years ago. It is the leading Indian veterinary journal and includes results of original research on diseases, breeding, nutrition and husbandry of farm animals; and reference to almost all important work in veterinary science.

*Single copy*  
3s. 9d.

*Annual subscription*  
15s.

## INDIAN JOURNAL OF AGRICULTURAL AND VETERINARY EDUCATION

A half-yearly periodical published with a view to promoting agricultural and veterinary education in the country. Scientific papers and instructive articles on different aspects of agricultural and veterinary education presented in this journal are of great practical use to educationists, research scholars, students, etc. Contributors to this journal are renowned specialists from India and abroad.

## NUTRITION ABSTRACTS AND REVIEWS

published by the

### COMMONWEALTH BUREAU OF ANIMAL NUTRITION

Rowett Research Institute, Bucksburn, Aberdeen, Scotland

A quarterly publication bringing together in abstracts whatever is available of the world literature on human and animal nutrition in all its aspects. Each number contains a Review Article dealing with some subject of current interest.

Volume 33, for 1963, costs 200s. and orders are now being recorded. Certain concessions are available to Commonwealth subscribers; details may be obtained from the Secretary, Nutrition Abstracts and Reviews, at the address shown above.

### CONSULTATION SERVICE

The Bureau is prepared, within the limits of its information, to answer enquiries from workers in laboratory research, field investigations or nutritional planning, but not from commercial sources, who do not themselves have access to the necessary literature.
