THE PHILOSOPHER'S INDEX

An International Quarterly Index
To Philosophical Periodicals

The **Philosopher's Index** is an up-to-date quarterly index of articles from more than one hundred and fifty major philosophy journals and related interdisciplinary publications. Articles are indexed by subject and author. Abstracts of the articles are published in each issue and are written by the authors of the articles. In addition, the Index contains a Book Review Index.

The Quarterly, Paperback, \$20 (Individuals: \$10)
Annual Cumulative Edition, Hardbound, \$25 (Individuals: \$15)

Nietzsche in England
1890-1914
The Growth of
a Reputation

DAVID S. THATCHER

In this lucid and scholarly study Dr Thatcher traces the reaction in England to Nietzsche's writings. Through English literary works and critical periodicals of the imperial *fin de siècle* and the pre-war years we see Nietzsche's ideas pass from notoriety to increasingly sympathetic acceptance. This volume makes a substantial contribution to the history of ideas and to the study of influences on some major English writers. Its successful re-creation of the intellectual atmosphere of an era will interest students of literature, philosophy, and cultural history.

UNIVERSITY OF TORONTO PRESS

LOCKE, BERKELEY, HUME

CENTRAL THEMES *by* JONATHAN BENNETT. This book discusses meaning, causality, and objectivity—the general areas in which the views of Locke, Berkeley and Hume are still of central philosophical importance. Professor Bennett gives a critical appraisal of many of their most widely discussed doctrines; he seeks to bring new understanding to the work of the three philosophers not by presenting a rounded picture of their thought, but by making it easier to grasp the logic of some of their most significant writings. Cloth \$12.00, Paper \$5.25

LIFE OF DAVID HUME

by ERNEST C. MOSSNER. The story of Hume's life, presenting enough of his thinking to interpret his actions without overburdening the narrative with systematic exposition. This book was first published by Thomas Nelson and Sons Ltd. in 1954, and has been out of print since 1966. \$17.00.

SOCIAL CONTRACT

ESSAYS BY LOCKE, HUME AND ROUSSEAU *edited by* ERNEST BARKER. The idea of social contract found its fullest expression in the work of Locke, in 'An Essay Concerning the True Original, Extent and End of Civil Government'; Rousseau, in 'The Social Contract', accepted the idea; Hume, in 'Of the Original Contract', was its critic. The three essays are here published together, with an introduction by the late Sir Ernest Barker. Paper \$2.50.

THE LIBRARY OF JOHN LOCKE

by JOHN HARRISON *and* PETER LASLETT. For this second edition a subject index of Locke's holdings has been added, the introductory essay has been brought up to date, the catalogue has been amended, and the reference apparatus has been enlarged. \$9.00
