

**Instructions for Authors:** Papers and short notes from contributors anywhere in the world are welcome for consideration for publication in *The Lichenologist* and may be on any aspect of lichenology. However, priority in publication will be given to those who are members of the British Lichen Society.

Manuscripts must be typewritten on foolscap or A4 size paper in double or treble spacing with 2.5 cm margins all round and submitted in triplicate to the Senior Editor: Dr D. H. Brown, School of Biological Sciences, The University of Bristol, Woodland Road, Bristol BS8 1UG, or for North America: Dr C. W. Smith, Department of Botany, University of Hawaii, 3190 Maile Way, Honolulu, HI 96822, USA. Word-processed manuscripts should not use italics (underline appropriate words) or right-hand justification.

Original line illustrations must be in black ink on stiff white card, preferably Bristol board. Additional copies of all illustrations should be supplied at the size intended for publication.

As a guide to the layout of synonymy, keys, references, etc., recent issues should be consulted. The spellings of locality names in Britain and abroad must follow those of the most recent editions of maps published by the Ordnance Survey and *The Times Atlas of the World*, respectively. Titles of periodicals should be given in full (except in taxonomic treatments in text where they should be abbreviated as in the fourth edition of the *World List of Scientific Periodicals* and its supplements).

**Copyright.** Authors submitting a manuscript do so on the understanding that if it is accepted for publication, copyright in the article, including the right to reproduce the article in all forms and media, shall be assigned exclusively to the British Lichen Society. The Copyright Transfer Agreement, which may be copied from the pages immediately preceding these Instructions for Authors or found on the journal home page listed on the back cover, should be signed by the appropriate person(s) and should accompany the original submission of a manuscript to this journal. The transfer of copyright does not take effect until the manuscript is accepted for publication. Copyright in the paper for the United States of America shall be assigned to the Society. It is the policy of the publisher that authors need not obtain permission in the following cases only: (1) to use their original figures or tables in their future works; (2) to make copies of their papers for use in their classroom teaching; and (3) to include their papers as part of their dissertations.

**Offprints.** In consideration for the assignment of copyright, the Society will supply 50 offprints of each paper or Short Communication but not of Book Reviews. Further offprints may be ordered at extra cost at the proof stage. Reprints must be ordered directly from Academic Press Ltd when the author returns the proofs of their article.

Page charges are not levied, but if funds to cover printing costs are available quicker publication, or that of unusually long papers, can be facilitated. Authors are responsible for the cost of coloured illustrations.

Books dealing with any aspect of lichenology will be reviewed. Publishers wishing to have works reviewed in *The Lichenologist* should send them to Dr B. J. Coppins, Royal Botanic Gardens, Inverleith Row, Edinburgh, EH3 5LR, in the first instance.

**Notice:** While the Senior Editor and Editors endeavour to check the accuracy of statements in contributions in as far as they are able, it should be emphasized that views expressed in papers in *The Lichenologist* are those of their authors and do not necessarily represent those of the British Lichen Society, Academic Press Ltd, the Senior Editor, or the Editors.

## NOTICE

Under the terms of the US copyright law effective January 1, 1978, and the copyright laws of many other countries, journal publishers are required to obtain written confirmation from authors in order to acquire copyright rights for papers published in their journals. We are therefore asking you to sign and return the applicable section of the accompanying form. If you and your co-authors, if any, own rights in your paper as individuals, please sign Section **A** of the attached form. If you work for a corporation that owns the rights in the paper, please have an authorized officer of the corporation sign Section **B**. If the paper is in the public domain because you created it within the scope of your employment with the US government or another government that does not claim any copyright or if the paper is subject to Crown copyright because you are an employee of the British or Canadian government, please sign Section **C**. If any governmental entity other than the US, British, or Canadian government owns copyright, please call Academic Press at the number below. No manuscript will be processed until the appropriate form has been returned.

We ask your cooperation because it is of vital importance for the widest possible dissemination of your paper and the continued viability of our journal. We must have your written confirmation in order to authorize libraries and other information centers to use this material and to perform other appropriate publishing functions.

If your manuscript is not published within a reasonable period of time after acceptance, upon written request, AP will promptly return the rights to the manuscript to the author(s).

**IMPORTANT:** Note that Academic Press may choose to publish an abstract or portions of the paper prior to publishing the paper in the journal. Please contact Academic Press immediately if you would like Academic Press to refrain from such prior publication for any reason, including disclosure of a patentable invention.

If you have any questions about the procedures, please contact Academic Press: USA telephone (619) 230-1840; fax (619) 699-6350. UK telephone 44-171-482-2893; fax 44-171-267-0362.

Please submit the accompanying form with your manuscript to the editorial office listed in the Information for Authors.

Thank you.
