MATERIALS RESEARCH

FOCUS ISSUE
The Materials Science of Additive Manufacturing

VOLUME 29 • NO 17
SEPTEMBER 14, 2014

A publication of the

MRS MATERIALS RESEARCH SOCIETY®
Advancing materials. Improving the quality of life.

CAMBRIDGE
UNIVERSITY PRESS

Journal of MATERIALS RESEARCH

JOURNAL OF MATERIALS RESEARCH (JMR) is an interdisciplinary journal serving the materials research community through publication of original research articles and invited reviews encompassing the synthesis, processing, characterization, properties, and theoretical description of materials.

JMR publishes new research that demonstrates a significant impact or advance of scientific understanding of interest to the materials research community. Engineering studies and applications to commercial products are beyond the scope of *JMR* and should be submitted elsewhere. Manuscripts that report data without giving an analysis, interpretation, or discussion are only acceptable if the data are sufficiently important that publication is expected to lead to significant new studies or advancements in science or technology.

Manuscripts must be submitted to the *Journal of Materials Research* electronically via ScholarOne manuscripts, at the following website address: <http://mc.manuscriptcentral.com/jmr>. Electronic submission expedites the review process and also allows authors to track the status of their manuscripts at any time. Complete instructions are available on the ScholarOne site and authors will be prompted to provide all necessary information.

Manuscripts must be prepared in English, using a word processing program, formatted to fit 8½ x 11 in. paper, and saved as .doc, .pdf, .rtf, or .ps files. Separate graphics files (.eps and .tif) must be uploaded for each figure. Authors may also upload .xls or .ppt supplemental files as part of the manuscript submission process. All of these files will be converted to .pdf format. Detailed instructions are available on the submission web site. During submission, authors must enter all coauthor names and e-mail addresses. Manuscripts will not be considered for peer review until this information is provided. Authors must also enter manuscript keywords using the *JMR* keyword list (located on the submission web site). Authors who are not fluent in English must have their manuscript edited for correct English grammar and sentence structure before submission.

Authors are expected to follow the conventional writing, notation, and illustration style prescribed in *Scientific Style and Format: the CSE Manual for Authors, Editors and Publishers, 7th edition, 2006*. Authors should also study the form and style of printed material in this journal. SI units should be used. Authors should use an identical format for their names in all publications to facilitate use of citations and author indexes.

Manuscripts are accepted with the understanding that they represent original research, except for review articles, and that they have not been copyrighted, published, or submitted for publication elsewhere. Authors submitting manuscripts to *JMR* who have related material under consideration or in press elsewhere should send a copy of the related material to *JMR* at the time of submission. While their manuscripts are under consideration at *JMR*, authors must disclose any such related material. To expedite the review process, authors may provide names and contact information for up to four possible reviewers.

Articles are original research reports that include complete, detailed, self-contained descriptions of research efforts. All articles must contain an abstract and section headings.

Commentaries and Reviews: *Journal of Materials Research* occasionally publishes commentaries on topics of current interest or reviews of the literature in a given area. If an author proposes a review, the title, abstract, and a brief outline should be submitted to the Editorial Office via e-mail for prior consultation on the appropriateness of the topic.

Color policy: It is not necessary for authors to indicate that a figure should be displayed in color online. *JMR* will assume that any author who submits figures in color wants and agrees to their being produced in color online. Figures may be printed in color at the author's request for an additional charge. Color figures must be submitted before the paper is accepted for publication, and cannot be received later in the process. Authors cannot submit two versions of the same figure, one for color and one for black and white; only one version can be submitted. Authors need to carefully consider the following when submitting figures in color that will

be published in color online only: 1) The colors chosen must reproduce effectively and the colors should be distinguishable when printed in black and white; 2) The descriptions of figures in text and captions must be sufficiently clear for both online and print copy. When submitting figures to be in color online only, authors should include the phrase <<color online>> in the figure captions. This is the author's responsibility. Authors will see these color figures when viewing their author page proofs on screen. Authors should always print their page proofs in black and white to see how they will appear in print. Authors will NOT be allowed to submit color figures to replace black and white figures in the page proof stage. To maximize the probability that figures will be published in color online and also print as good quality black and white or grayscale graphics, authors are encouraged to follow these figure submission guidelines: 1) Submit a color graphic in Tagged Image File Format (.tif); 2) Submit color graphics with a resolution of at least 300 dpi (600 dpi if there is text or line art in the figure); 3) Submit color graphics in CMYK format; 4) Submit figures sized to fit the actual column or page width of the journal so that reduction or enlargement is not necessary; 5) Submit multipart figures in one single electronic file.

Journal of Materials Research (ISSN: 0884-2914) is published twenty-four times a year by Cambridge University Press, 32 Avenue of the Americas, New York, NY 10013 – 2473 for the Materials Research Society. Periodical Postage Paid in New York, NY and additional mailing offices. **POSTMASTER:** Send address changes to *Journal of Materials Research*, c/o Journals Dept., Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2113, USA.

Subscriptions, renewals, address changes, and single-copy orders should be addressed to Subscription Fulfillment, *Journal of Materials Research*, Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2133, USA (for USA, Canada, and Mexico); or Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge, CB2 8RU, England (for UK and elsewhere). Allow at least six weeks advance notice. For address changes, please send both old and new addresses and, if possible, include a mailing label from a recent issue. Requests from subscribers for missing journal issues will be honored without charge only if received within six months of the issue's actual date of publication; otherwise, the issue may be purchased at the single-copy price.

Reprints of individual articles in *Journal of Materials Research* may be ordered. For information on reprints, please contact Cambridge University Press.

Individual member subscriptions are for personal use only.

Journal of MATERIALS RESEARCH

Editor-in-Chief: Gary L. Messing, *The Pennsylvania State University, USA*

Associate Editor, Biomaterials: Adrian Mann, *Rutgers University, USA*

Associate Editor, Metallic Materials: Jürgen Eckert, *IFW Dresden, Germany*

Associate Editor, Polymers and Organic Materials: Linda Schadler, *Rensselaer Polytechnic Institute, USA*

Guest Editors for Focus Issue: The Materials Science of Additive Manufacturing

Todd Palmer, *The Pennsylvania State University, USA*

Jens Günster, *BAM Federal Institute of Materials Research and Testing, Germany*

Daniel Günther, *voxeljet AG, Germany*

Editorial Office: Ellen W. Kracht, *Publications Manager, Materials Research Society, Warrendale, PA*

THE MATERIALS SCIENCE OF ADDITIVE MANUFACTURING

1791 Introduction

Todd A. Palmer, Jens Günster,
Daniel Günther

POLYMERS

REVIEWS

1792–1816 Additive nanomanufacturing – A review

D.S. Engstrom, B. Porter,
M. Pacios, H. Bhaskaran

1817–1823 Nanostructural characterization of carbon nanotubes in laser-sintered polyamide 12 by 3D-TEM

Jiaming Bai, Ruth D. Goodridge,
Richard J.M. Hague, Mo Song,
Hideyuki Murakami

INVITED PAPERS

1824–1832 Materials perspective of polymers for additive manufacturing with selective laser sintering

Manfred Schmid, Antonio Amado,
Konrad Wegener

1833–1840 Compact polymeric 3D prints of high stability

Goetz Peter Hellmann,
Christoph Kottlorz, Jonas Presser,
Katja Utaloff

ARTICLES

1841–1851 Aging behavior of thermoplastic elastomers in the laser sintering process

Stefan Ziegelmeier,
Frank Wöllecke,
Christopher J. Tuck,
Ruth D. Goodridge,
Richard J.M. Hague

1852–1858 Investigating the behavior of laser-sintered Nylon 12 parts subject to dynamic loading

Hoda Amel, Hadi Moztafzadeh,
Jem Rongong, Neil Hopkinson

1859–1866 Novel ABS-based binary and ternary polymer blends for material extrusion 3D printing

Carmen R. Rocha,
Angel R. Torrado Perez,
David A. Roberson,
Corey M. Shemelya,
Eric MacDonald, Ryan B. Wicker

1867–1875 Tunability and enhancement of mechanical behavior with additively manufactured bio-inspired hierarchical suture interfaces

Erica Lin, Yaning Li,
James C. Weaver, Christine Ortiz,
Mary C. Boyce

1876–1882 Nonisotropic experimental characterization of the relaxation modulus for PolyJet manufactured parts

David Blanco, Pelayo Fernandez,
Alvaro Noriega

1883–1892 Selective laser sintering of polymer biocomposites based on polymethyl methacrylate

Rajkumar Velu, Sarat Singamneni

1893–1898 The importance of carbon fiber to polymer additive manufacturing

Lonnie J. Love, Vlastamil Kunc,
Orlando Rios, Chad E. Duty,
Amelia M. Elliott, Brian K. Post,
Rachel J. Smith, Craig A. Blue

(Continued)

METALS**ARTICLES**

1899–1910 **Compositionally graded metals: A new frontier of additive manufacturing**

Douglas C. Hofmann,
Joanna Kolodziejska,
Scott Roberts, Richard Otis,
Robert Peter Dillon,
Jong-Ook Suh, Zi-Kui Liu,
John-Paul Borgonia

1911–1919 **On the fatigue properties of metals manufactured by selective laser melting – The role of ductility**

Stefan Leuders, Tobias Lieneske,
Stefan Lammers, Thomas Tröster,
Thomas Niendorf

INVITED PAPERS

1920–1930 **Thermal effects on microstructural heterogeneity of Inconel 718 materials fabricated by electron beam melting**

William J. Sames, Kinga A. Unocic,
Ryan R. Dehoff, Tapasvi Lolla,
Sudarsanam S. Babu

1931–1940 **Studies on thermoplastic 3D printing of steel–zirconia composites**

Uwe Scheithauer, Anne Bergner,
Eric Schwarzer,
Hans-Jürgen Richter,
Tassilo Moritz

ARTICLES

1941–1950 **Comparative study of microstructures and mechanical properties of in situ Ti–TiB composites produced by selective laser melting, powder metallurgy, and casting technologies**

H. Attar, M. Bönisch, M. Calin,
L.C. Zhang, K. Zhuravleva,
A. Funk, S. Scudino, C. Yang,
J. Eckert

1951–1959 **Beam speed effects on Ti–6Al–4V microstructures in electron beam additive manufacturing**

Xibing Gong, James Lydon,
Kenneth Cooper, Kevin Chou

1960–1969 **Selective laser melting additive manufacturing of TiC/Inconel 718 bulk-form nanocomposites: Densification, microstructure, and performance**

Qingbo Jia, Dongdong Gu

1970–1977 **Transmission electron microscopy of an ultrasonically consolidated copper–aluminum interface**

Jennifer M. Sietins,
John W. Gillespie,
Suresh G. Advani

1978–1986 **Characterization of microstructure and residual stress in a 3D H13 tool steel component produced by additive manufacturing**

Ryan Cottam, James Wang,
Vladimir Luzin

1987–1996 **Additive manufacturing of nickel-based superalloy Inconel 718 by selective electron beam melting: Processing window and microstructure**

Harald Ernst Helmer,
Carolin Körner,
Robert Friedrich Singer

1997–2005 **Selective laser sintering of composite copper–tin powders**

David C. Walker, William F. Caley,
Mathieu Brochu

2006–2020 **Tensile properties of laser additive manufactured Inconel 718 using filler wire**

Yi-Nan Zhang, Xinjin Cao,
Priti Wanjara, Mamoun Medraj

2021–2027 **Laser-deposited CoCrMo alloy: Microstructure, wear, and electrochemical properties**

Kedar M. Mantrala, Mitun Das,
Vamsi K. Balla, Ch. Srinivasa Rao,
V.V.S. Kesava Rao

(Continued)

- 2028–2035 **The formation of $\alpha + \beta$ microstructure in as-fabricated selective laser melting of Ti–6Al–4V** Marlo Simonelli, Yau Yau Tse, C. Tuck
- 2036–2043 **Laser metal deposition and selective laser melting of Fe–28 at.% Al** Gesa Rolink, Sabrina Vogt, Lucia Senčerkova, Andreas Weisheit, Reinhart Poprawe, Martin Palm
- 2044–2054 **Tribological and corrosion properties of Al–12Si produced by selective laser melting** K.G. Prashanth, B. Debalina, Z. Wang, P.F. Gostin, A. Gebert, M. Calin, U. Kühn, M. Kamaraj, S. Scudino, J. Eckert
- 2055–2065 **Optimized welding parameters for Al 6061 ultrasonic additive manufactured structures** Paul J. Wolcott, Adam Hehr, Marcelo J. Dapino
- 2066–2071 **Effects of wire feed conditions on in situ alloying and additive layer manufacturing of titanium aluminides using gas tungsten arc welding** Yan Ma, Dominic Cuiuri, Nicholas Hoye, Huijun Li, Zengxi Pan
- 2072–2079 **Precipitation and austenite reversion behavior of a maraging steel produced by selective laser melting** Eric A. Jäggle, Pyuck-Pa Choi, Jan Van Humbeeck, Dierk Raabe

CERAMICS

INVITED PAPERS

- 2080–2085 **Materials for high speed sintering** Adam Ellis, Christopher J. Noble, Liam Hartley, Charis Lestrangle, Neil Hopkinson, Candice Majewski
- 2086–2094 **Shaping of ceramic parts by selective laser melting of powder bed** Enrique Juste, Fabrice Petit, Véronique Lardot, Francis Cambier

ARTICLES

- 2095–2099 **Strategies for the selective volume sintering of ceramics** Thomas Mühler, Gundula Hensch, Jürgen G. Heinrich, Dongxu Yao, Stephan Gräf, Frank A. Müller, Jens Günster
- 2100–2107 **Microdrop generation and deposition of ionic liquids** Víctor J. Cadarso, Julia Perera-Nuñez, Antonio Mendez-Vilas, Luis Labajos-Broncano, Maria-Luisa González-Martín, Jürgen Brugger
