The politics list at Cambridge is one of unparalleled quality and range.

Our books list routinely tops surveys of political scientists for the calibre of its output, which includes field-defining series such as Cambridge Studies in Comparative Politics, Cambridge Studies in International Relations and Cambridge Texts in the History of Political Thought.

*American Political Science Review* and *International Organization* are widely recognised as the leading generalist journals in political science and international relations, while the likes of *British Journal of Political Science* and *World Politics* remain essential reading for researchers worldwide.

For students and scholars across the breadth of political enquiry, Cambridge is the resource of choice.
