# Health Economics, Policy and Law

Published in association with LSE Health

## Editor-in-Chief

Adam Oliver, *London School of Economics and Political Science, UK*

International trends highlight the confluence of economics, politics and legal considerations in the health policy process. *Health Economics, Policy and Law (HEPL)* provides a forum for inter-disciplinary health policy studies, and will be of use to academics, policy makers, health care managers and professionals. *HEPL* is international in scope, publishing both theoretical and applied work, with articles on all aspects of health policy. *HEPL* is particularly interested in publishing innovative ideas that promise to contribute to improving health and healthcare policy. Considerable emphasis is placed on rigorous conceptual development and analysis, and on the presentation of empirical evidence that is relevant to the policy process. Review articles and debate sections bring readers in touch with current research developments and issues.

Prehospital and Disaster Medicine (ISSN 1049-023X) is published bimonthly in the months of February, April, June, August, October, December, by Cambridge University Press for the World Association for Disaster and Emergency Medicine. Prehospital and Disaster Medicine incorporates the Journal of the World Association for Emergency and Disaster Medicine and the Journal of Prehospital Medicine.

**Editorial Information:** All manuscripts must be submitted through the Journal's online submission platform, ScholarOne Manuscripts: <http://mc.manuscriptcentral.com/pdm>.

**2013 Subscription Information:** Institutions print and electronic: US\$555.00 in the USA, Canada, and Mexico; UK£338.00+VAT elsewhere. Institutions electronic only: US\$417.00 in the USA, Canada, and Mexico; UK£255.00+VAT elsewhere. Individuals print and electronic: US\$167.00 in the USA, Canada, and Mexico; UK£100.00+VAT elsewhere. Individuals electronic only: US\$125.00 in the USA, Canada, and Mexico; UK£72.00+VAT elsewhere. Single Part: US\$102.00 in the USA, Canada, and Mexico; UK£62.00+VAT elsewhere. Prices include postage and insurance. Airmail or registered mail is extra. Back volume prices are available upon request. Claims of non-receipt or damaged issues must be filed within three months of cover date.

Comprehensively indexed by the National Library of Medicine (MEDLINE), Cumulative Index to Nursing and Allied Health (CINAHL) and Health Star Cumulative Index. The database is available online via BRS, Data-Star, and DIA-LOG, and on CD-ROM through CD Plus, Compact Cambridge and Silver Platter. Abstracts and search capability available on the Internet at <http://journals.cambridge.org/PDM>.

## Cover Artwork

*Winter Sky*, digital, pigment ink on canvas by Dave Tilton

Mr. Tilton's work is experimental and created in a digital environment. Modeled after concepts used in the creation and synthesis of sounds for electronic music composition, the techniques he developed are unique, innovative, and complex. His richly textured images suggest memories and impressions, and offer views on a world filled with suggestion, mood, and sumptuous beauty.

Mr. Tilton's work has been exhibited widely and has won awards in national and international competition. He was also included in the recently published *100 Artists of the Midwest* by E. Ashley Rooney.

He currently lives with his wife, photographer Paula Oeler, in Sister Bay, Wisconsin, where they have the privilege to enjoy and be inspired by the incredible beauty of the Door County peninsula.

Mr. Tilton's work can be viewed at [www.cartastudioworks.com](http://www.cartastudioworks.com).

**Aims and Scope:** The mission of *Prehospital and Disaster Medicine* (PDM) is the distribution of information relevant to the practice of out-of-hospital and in-hospital emergency medical care, disaster health, and public health and safety. PDM provides an international forum for the reporting and discussion of scientific studies, both quantitative and qualitative, that have relevance to the above practices. The major objectives are: (1) the improvement of the types and quality of the care delivered to patients with perceived medical emergencies and to victims of multi-casualty accidents or disasters, including the public health and safety aspects of such events; and (2) the prevention and/or mitigation of the occurrence of such events and of the effects of these events upon the human population and environment.

**Editorial Office:** Prehospital and Disaster Medicine, 3330 University Avenue, Suite 130, Madison, Wisconsin 53705, USA. Telephone: (+1) (608) 819-6604; Facsimile (+1) (608) 819-6055; E-mail: [pdm@wadem.org](mailto:pdm@wadem.org)
